RAPIDES PARISH SCHOOL BOARD

PURPOSE

The purpose of this booklet is to provide students and parents information regarding their rights and responsibilities in the Rapides Parish School System.

Each student is responsible for complying with policies and procedures in this document. We are requesting that you become thoroughly familiar with its contents.

Students and parents are to read and sign the last page of this document, indicating that they have received a copy of it and return it to their home school. Failure to return the receipt will result in an automatic suspension until the receipt is returned.

DISCIPLINE POLICY OF THE RAPIDES PARISH SCHOOL BOARD

INTRODUCTION

One major objective of discipline is to teach and motivate students to develop self-discipline. Although the ultimate responsibility for student conduct rests with the student and his/her parent, discipline is a part of the daily responsibility of school personnel and not merely the action at times when a student may deviate from acceptable forms of conduct.

The school has the responsibility to provide an educational environment for students to practice controlling their own behavior, to correct their own mistakes in behavior, and to see examples of responsible behavior by staff and other students.

It should be clearly understood by the student, his parents and all school personnel that the purpose of all disciplinary action is to correct future behavior and to teach the student that education is a right qualified by compliance with reasonable rules and regulations.

“Discipline shall be administered in a uniform, consistent and non-discriminatory manner throughout the school system.”

School Resource Officers may be stationed in Rapides Parish Schools in cooperation with the Rapides Parish Sheriff’s Office.

This policy is designed to conform to R.S. 17:416. In the event of a policy conflict or omission, the statute controls.

Section I
Discipline and
Procedures

PHILOSOPHY OF DISCIPLINE

Rapides Parish School Board endeavors to offer each Student an education which shall be offered in an orderly, healthful atmosphere, physical and emotional, firm and fair in all matters pertaining to school life.

Every child shall comply with all rules and regulations, state and local, having to do with Student behavior. In a democracy, there exist many privileges and freedoms, all of which are dependent on the observance of certain rules and regulations. ANY STUDENT BY HIS/HER OWN FAILURE TO COMPLY WITH SCHOOL REGULATIONS MAY LOSE HIS/HER RIGHT TO A PUBLIC EDUCATION.

All personnel of the Rapides Parish School Board shall strive to provide an environment that will bring about effective learning, thus enabling each student to achieve his or her own potential.

All Board employees, parents or guardians and students shall, to the greatest degree practicable, enjoy the maximum protections fostered by the rules, regulations and laws of the Rapides Parish School Board and the State of Louisiana while in the school environment. Any person initiating a physical attack upon another person while in the school environment will be referred by school personnel to the appropriate authorities for prosecution or disciplinary action and further will be held responsible civilly for any losses for which the Board may be responsible or for damages to school property.

In the event of a physical attack upon any teacher, support personnel, principal, assistant principal, or other Board employees on school property, or at a school-related function, the school principal or designee or other supervisory personnel in charge at the time of the attack shall immediately report the incident to the appropriate law enforcement personnel having jurisdiction of the location of the attack. Additionally, in the event of a physical attack by a non-student on a student or a visitor that results in physical injury or property damage, the appropriate law enforcement authorities shall be notified and a report made of the incident. Additionally, where confrontation between students on school property or at a school related function results in serious physical injury to a student, the appropriate law enforcement officers shall be notified and a report made of the incident. Where a physical attack upon a member of the teaching staff results in sick leave under the provisions of R.S. 17:1201 (C), an incident file containing all reports and investigations of the incident accumulated by the principal or central office staff shall be referred to the Board's legal advisor for initiation of legal action against the perpetrator of the attack and any persons or insurers who might be responsible for possible recovery of losses and damages to the Board caused by the payment of the statutory benefits to the injured employee. An employee who is so injured, shall, on request by the Superintendent's office, execute such subrogation agreements or assignment documents as might be required under the circumstances.

MANDATED PROCEDURES FOR DISSEMINATING MATERIALS IN THE DISCIPLINE POLICY

The following steps will be taken to insure that everyone involved is properly informed of all aspects of the discipline policy:

1. The Central Office staff will conduct an in-service workshop for all principals and assistant principals, prior to the opening of school.
2. Each principal will hold in-service training sessions for the teachers and other personnel in the school.
3. Each student will be given a copy of the discipline policy and be required to return receipt signed by the parent or legal guardian.
4. Classroom teachers will discuss each part of the policy with their students.
5. Each principal will use an assembly period to emphasize the importance of strict observance of the school's rules and the Parish Discipline Policy.
6. Each school staff will provide opportunities for discussion of the policy during Parents' Night activities.
7. "Additionally, each school administration shall require that every student be provided an orientation during the first five days of each school year regarding school disciplinary rules and provisions of the Code of Student Conduct which shall include

general information as to the rights afforded teachers pursuant to R.S. 17:416.18. If a student enrolls after the beginning of the school year, a similar orientation shall be provided during the first five days of enrollment. In no case, however, shall the failure to provide the formal orientation constitute a defense to the imposition of any disciplinary action or other action against the student because each student will receive a copy of this policy handbook and be required to submit the parent or guardian's acknowledgment of receipt of the handbook as a condition of enrollment – a copy of the 'Teacher Bill of Rights' provided by R.S. 17:416.18 is attached as an appendix to this handbook; additionally a copy shall be posted in a prominent place in every school and administrative building operated by the board and posted on the board's web site."

DEFINITION OF DISCIPLINE

Discipline is the combination of a mental attitude and a system of self-control that results in a standard of behavior demonstrated by appropriate conduct in all situations. In education it is a process which strengthens, molds and corrects students through a system of essential rules, a program of teaching and supervisory control and when necessary, just and constructive punishment.

DISCIPLINE PROCEDURES

Each principal shall exercise the proper disciplinary control of the school to which the principal is assigned through the authority granted by the federal government, Louisiana state law and the Rapides Parish School Board. In order to establish and maintain this control, the principal will utilize the following:

Discipline of Students: suspension and expulsion

Every teacher shall endeavor to hold every Student to a strict accountability for any disorderly conduct in school or on the playgrounds of the school, on the street or road while going to or returning from school or during intermission or recess or while attending school functions or events.

Each teacher may take disciplinary action to correct a Student who disrupts normal classroom activities, who is disrespectful to a teacher, who willfully disobeys a teacher, who uses abusive or foul language directed at a teacher or another Student, who violates school rules, or who interferes with an orderly educational process.

Disciplinary action may include but is not limited to:

1. Oral or written reprimands
2. Referral for a counseling session which may include but shall not be limited to conflict resolution, social responsibility, family responsibility, peer mediation and stress management.
3. Written notification to parents of disruptive or unacceptable behavior, a copy of which shall be provided to the principal.
4. Other disciplinary measures approved by the principal and faculty of the school and in compliance with School Board policy.

Rapides Parish School Board Virtual Student Conduct Expectations

Students must maintain virtual settings and behaviors that are conducive for instruction and that minimize distractions.

Virtual Work Settings

1. Students are expected to have a designated work area in their home cleared of everything other than what they need for class. Working stations must be free of foreign objects that are not being utilized for instruction.
2. The recording device being used for instruction must be positioned to allow teachers to observe both the working space and student, especially during testing.
3. Eating and drinking are not allowed during virtual courses. Liquids can potentially damage electronic devices. Eating and drinking during virtual lessons are distractions to the instructional environment.
4. When possible, students are encouraged to work in areas that are isolated from other individuals and pets. If circumstances exist that do not allow complete seclusion, the parent will need to share this information separately with the instructor. Instructors will only require what the parent can reasonably provide.
5. Additional electronic devices should not be kept or used within the visible working area, unless they are being utilized for instruction, or are teacher approved. This includes the use of speakers, phones, earphones and other devices that may provide distractions from teacher lead instruction.
6. Students will follow daily guidance from their teachers regarding best methods of communicating and participating during virtual schooling. Instructions regarding when and how to interact verbally and how to use audio and camera options will be dependent on the design of instruction and direction of the teacher.
7. Students are to remain positively engaged in instruction and participate.
8. Behavior that is disruptive to the virtual schooling setting will be addressed using progressive discipline measures.

Student Dress & Conduct

9. Students are to wear appropriate dress that does not distract from the virtual learning process. Inappropriate attire including but not limited to the following are prohibited: Pajamas or clothing that is transparent or overly revealing, clothing with profanity or provocative pictures; derogatory terms; racial slurs; or sexual content. School uniforms will not be required for virtual schooling.

Discipline for Virtual Learners

All virtual students enrolled in the Rapides Parish School System are expected to conduct themselves in accordance with the rules of the school and Rapides Parish School Board. Students should refrain from engaging in any of the behaviors identified in RPSB Student Code of Conduct while engaged in virtual schooling. The Rapides Parish School District has extended its normal behavior guidelines to the virtual classroom with a few modifications that factor in the home setting.

Behavior that could result in disciplinary actions for online students include but are not limited to: cyberbullying, wearing inappropriate clothing, repeated tardiness, inappropriate use of electronic media, threatening or cursing a student or teacher, and intentional disturbance of an online class.

There are three levels of disciplinary measures/consequences utilized by the school:

- 1) Conference
- 2) Out of School Suspension
- 3) Expulsion

Conference: Students that receive disciplinary conferences will have the conference (via phone or in person) with their parent/guardian(s) and a school administrator. The incident will be referred by the teacher on a disciplinary referral and will be submitted to our data reporting system (PowerSchool). The student will not have a disruption in schooling and will not be removed from the class.

Out of School Suspension: When a student is assigned Out of School Suspension, the student will only have access to power points and or assignments/materials outside of live learning sessions. Students will be suspended from live sessions and interactions with peers during the suspension. The student is not allowed to attend school sponsored programs or activities. The school administrator determines the length of a suspension. The teacher will submit a disciplinary referral and the suspension will be documented in writing on a disciplinary referral and submitted to PowerSchool.

Expulsion: Recommended expulsion will be reserved for serious discipline infractions but none that violate a student's constitutional rights in a home setting. Although constitutional limitations may exist in the home setting during virtual learning sessions, if virtual students exhibit weapons or firearms, replicas or air guns during virtual learning in a manner which reasonably threatens teachers, administrators, other school employees or other students, discipline may be imposed under the general discipline policy for such conduct which reasonably supports a finding of a threat.

When a student is expelled, he or she is separated from the school for an extended period of time for disciplinary reasons. An expulsion will be documented in writing and will be submitted to PowerSchool. Parents of students who are recommended for expulsion but whose penalty is reduced to a suspension after due process, may appeal to the school board and district court in the same manner as an expelled student.

DISCIPLINE FOR STUDENTS WITH DISABILITIES:

If a student with a disability violates the student code of conduct and results in a disciplinary referral being submitted from the teacher to an administrator, he or she will be disciplined according to the discipline measures/consequences described above for up to 10 days. Upon subsequent violations that result in suspensions that exceed 10 days, the school will determine if the behavior manifested from the student's disability. If the school determines that the violation is not a manifestation of the student's disability, the school will apply the discipline procedures to the student in the same manner and for the same duration as the procedures would be applied to student's without disabilities. However, if it is determined that the violation manifested from the student's disability, the school will conduct a functional behavior assessment and develop a behavior plan to address the behavior violation so that it does not reoccur.

** Parents are expected to cooperate with the school staff in helping students maintain appropriate conduct in a virtual learning setting.

WRITTEN PUNISHMENT

Written punishment should be kept to a minimum and should be related to the subject or discussions of an offense. Handwritten reports shall be limited to three (3) handwritten pages or less.

ASSIGNMENT OF CONSEQUENCES

When a Student's behavior prevents the orderly instruction of other Students, or poses an immediate threat to the safety or physical well-being of any Student or teacher, or when a Student exhibits disrespectful behavior toward the teacher such as using foul or abusive language directed at a teacher or threatening a teacher, the teacher may have the Student immediately removed from the classroom and placed in the custody of the principal or the designee. A Student removed from the classroom pursuant to this subparagraph shall not receive credit for school work missed.

Upon being sent to the principal's office pursuant to the provisions of this subparagraph, the principal or designee shall advise the Student of the particular misconduct on the basis for such accusation, and the Student shall be given an opportunity at that time to explain the Student's version of the facts. The principal or the designee shall then conduct a counseling session with the Student that may be appropriate to establish a course of action consistent with school board policy to identify and correct the behavior for which the Student is being disciplined. A Student in kindergarten through grade six removed from a class pursuant to this subparagraph shall not be permitted to return to the class for at least (30) thirty minutes, unless agreed to by the teacher initiating the disciplinary action. A Student in grades seven through twelve removed from a class pursuant to this subparagraph shall not be permitted to return to the class during the same class period unless agreed to by the teacher initiating the disciplinary action. Additionally, the Student shall not be readmitted to the class until the principal has implemented one of the following disciplinary measures:

- Refer to MTSS team for intervention
- In-school suspension
- Detention
- Suspension
- Initiation of expulsion proceedings
- Assignment to an alternative school or detention program
- Any other disciplinary measure authorized by the principal with the concurrence of the teacher or the building level committee pursuant to law and board policy

When a Student is removed from a classroom pursuant to this subparagraph, the teacher may require that the parent, tutor, or legal guardian of the Student have a conference with the teacher in the presence of the principal or designee before the Student is readmitted.

Upon the third removal from the same classroom pursuant to this subparagraph, the teacher and the principal shall discuss the disruptive behavior patterns of the Student and the potentially appropriate disciplinary measure before the principal implements a disciplinary measure. If appropriate, a referral of the matter may be made to an appropriate building level committee. In addition, a conference between the teacher or other appropriate school employee and the Student's parent, tutor, or legal guardian shall be required prior to the Student being readmitted.

If the disruptive behavior persists, the teacher may request that the principal transfer the Student into another setting.

Notwithstanding any provision of law to the contrary, whenever a Student is formally accused of violating the provisions of R.S. 14:34.3, or school disciplinary rules or both, by committing a battery or an assault on any school employee, the principal shall suspend the Student from school immediately and the Student shall be removed immediately from the school premises without the benefit of the suspension procedures provided by R.S. 17:416 and this disciplinary handbook; however, the necessary notifications and due process procedures shall follow as soon as practicable. In accordance with 2006 La. Acts 733, 'assault' means an attempt to commit a battery on a school employee or administrator, or the intentional

placing of those persons in reasonable apprehension of receiving a battery by the student, or the student's making statements threatening physical harm to the employee or administrator. 2006 La. Acts 733

NOTE: Notwithstanding any provision of law to the contrary, when there is an incident involving a student and there is also an issue of immediate danger or intent to do harm or harm himself/herself, the student may be referred immediately as appropriate to the Rapides Alternative Positive Program for Students (RAPPS) pending the investigation and the hearing.

Any student committing battery on a school board employee shall be automatically suspended in accordance with R.S. 17:416 A (1) (c) and the principal shall recommend expulsion as provided by school board policy.

For students age ten (10) and under, if appropriate, law enforcement officials should be contacted. For all students over the age of ten (10), the principal shall contact the law enforcement officials.

No Student suspended in accordance with the provisions of the above paragraph shall be considered for readmission to the school in which the school employee allegedly battered by the Student is assigned, until all hearings and appeals associated with the alleged violation have been exhausted.

Except when the school system has no other school of suitable grade level for the Student to attend, no Student found guilty by a court of competent jurisdiction of violating the provisions of R.S. 14:34.3 or found guilty at a school system suspension hearing of committing a battery on any school employee shall be assigned to attend or shall attend the school in which the school employee battered by the Student is assigned.

Notwithstanding any provision of R.S. 17:158 to the contrary, a school system shall not be required to provide transportation to any Student reassigned to attend a school pursuant to the provisions of the above paragraph if providing such transportation for the Student will result in additional transportation costs to the school system.

REFERRALS

1. The teacher who refers a student to the administrator for disciplinary action will complete the teacher's portion of the Louisiana Department of Education School Behavior Report.
2. The administrator handling the referral will indicate on the referral form the disposition of the case and send a copy of the completed form to the referring teacher.
3. Copies of the completed Behavior Report Form will be kept in the student's permanent discipline file, filed in the administrator's office and a copy mailed to the parent or legal guardian.
4. The referring teacher's name shall be listed on the suspension/expulsion form.
5. A school bus operator referring a student for disciplinary reasons shall complete the Bus Behavior Form attached to this policy.

CORPORAL PUNISHMENT

Beginning at the start of the 2022-23 school year, corporal punishment will no longer be allowable in Rapides Parish Schools.

ARREST OF STUDENTS BY LAW ENFORCEMENT OFFICERS

When law enforcement agents appear at the school site to take students into custody, the officers should be encouraged to wait at the principal's office and the administration should summon the student to the principal's office for whatever action is deemed appropriate by law enforcement officers. If a student is taken into custody by law enforcement officers, the school administration, unless specially instructed in writing to the contrary by a law enforcement agency, should immediately attempt to contact the student's parent or guardian. The decision by law enforcement officers of the manner in which a student is taken into custody or whether to do so at all is solely within the province of law enforcement officers, and school administrators should not attempt to physically restrain or prevent officers from taking a student into custody because to do so may subject the administrator to personal arrest or resisting or interfering with an officer. Administration concerns over the wisdom or manner of taking a student into custody should be addressed in the proper forum, i.e., an inquiry of the officer's supervisor or a court of law, and not through physical resistance at the scene of the detention.

PUBLIC INFORMATION PROGRAM

The Superintendent of the Rapides Parish School Board and the administrative staff shall be responsible for the maintenance of all documents, letters or other printed materials collected, assembled and maintained by the school district. All written requests by citizens or outside agencies for information shall be directed to the Superintendent or his/her designee. The Superintendent or his/her designee shall review the request to determine if the information requested is public in nature.

If the information is determined to be public in nature, the Superintendent or his/her designee shall direct that it be released for duplication on the premises during normal business hours. The party requesting the information shall be charged the cost of reproduction and any other expenses entailed in locating and retrieving the information. If the information is in active use or otherwise unavailable, the party requesting the information shall be so notified and shall be notified again upon it becoming available.

NOTIFICATION

The School Board shall require each school, at the beginning of each school year, to provide the parent or legal guardian of each student with written information outlining the process and procedures to be followed in order to make a complaint, or request information from the school or School Board. Such information shall include at least, the name, address, phone number and e-mail address of the appropriate person to contact at each step of the process, and shall be updated annually.

Members of the general public should call the School Board office for assistance when requesting information or to make a complaint.

PHILOSOPHY

The Rapides Parish School System is committed to providing an education for all students so that academic, social and civic potential can be achieved in each student. Creating a safe environment that is conducive to learning will be the focus of every school. Each student should develop a degree of self-discipline and mutual respect for themselves and others while at school and in the community. It is recognized that a systematic approach is essential to have a successful plan that continues education services for those students resisting compliance. Therefore, to help maintain a positive educational atmosphere, alternative methods must be implemented that promote acceptable behavior and keep students off the streets.

It is our belief that school personnel, parents, and students must be committed and willing to work toward the overall goal of eventually returning these students to academic and social mainstream of education.

It should be emphasized that all policies and procedures of the Rapides Parish School Board and the Rapides Alternative Positive Program for Students will be strictly enforced. Any student who fails to comply with any policy or procedure will meet with stringent disciplinary actions.

RAPIDES DISTRICT-WIDE POSITIVE BEHAVIOR INTERVENTIONS SUPPORT TEAM

RECOMMENDATIONS FOR INCLUSION IN THE DISTRICT DISCIPLINE POLICY HANDBOOK

School-wide Positive Behavior Interventions Support (SWPBIS) is a Rapides Parish initiative, supported by the Louisiana State Department of Education, to build the capacity of schools, families, and communities to promote the social and academic success of all students. This proactive systems approach designed to create safe and effective learning environments in schools will ensure that all students have the social/emotional skills needed to increase the likelihood of their success at school and beyond.

OUR MISSION

The mission of the Rapides Parish School System is to build the capacity of our District and School Based Leadership Teams through training, coaching, and technical assistance. The District Team's focus is to provide assistance to schools in developing structures to teach expected behaviors and social skills, create student behavioral and academic support systems, and apply data-based decision making to disciplinary and academic supports.

OUR GOALS

- Increase the consistent use of positive teaching and reinforcement strategies among all school staff at school-wide, classroom and individual student levels throughout the district.
- Reduce the use of reactive disciplinary measures in schools (i.e. office discipline referrals, detentions, suspensions, expulsions) for all students.
- Increase data-based decision making about behavior, academic instruction, and reinforcement across all school settings.
- Implement effective, comprehensive supports/services/interventions for students with the most intensive behavioral/emotional needs.

DISTRICT REQUIREMENTS OF ALL SCHOOLS

All Rapides Parish Schools must:

- Establish a School Leadership Team committed to leading all PBIS efforts.
- Develop and positively state behavior expectations and rules.
- Have a data system used to identify current problems on individual campuses.
(Data collection system must be able to generate data in a graph format)
- Have lesson plans to teach expectations and rules.
- Develop procedures to encourage expected behaviors.
- Develop procedures for discouraging violations of school-wide expectations and rules.
- Have a plan for monitoring implementation and effectiveness of PBIS process.
- Build capacity to support students at all levels of PBIS
(Universal- Tier 1, Secondary-Tier 2, Tertiary- Tier 3)
- Submit a "Book of Products" which includes the following information:
 - Description of SWPBIS
 - School Mission Statement
 - List of PBIS Team Members
 - Referral Process outlined in a flow chart.
 - Definitions of problem behaviors (Majors and minors)
 - Referral forms to report Major/Minor infractions.
 - Expectations/Rules for all school settings.
 - Lesson Plans
 - Description of Reinforcement System
 - Effective Interventions/Consequences for Rule Violations. (Major and Minor)

DISCIPLINE AND DRESS REQUIREMENTS IN ALTERNATIVE SCHOOLS

Students assigned to alternative schools are subjected to heightened disciplinary requirements and more stringent dress codes which may include wearing uniforms. The particular requirements of the alternative school may be obtained from the school administrator upon admission.

DISCIPLINE OF STUDENTS ASSIGNED TO THE ALTERNATIVE SCHOOL WHO COMMIT ADDITIONAL INFRACTIONS

Should a student assigned to an alternative school in lieu of expulsion or suspension commit an act which constitutes a violation of the board's discipline policy or of the probationary agreement permitting the student's attendance at the alternative school, the student may be immediately removed from the school premises without the benefit of any hearing or other procedure applicable to suspension and expulsions provided that the verbal and written notice or the principal of the removal determination and the reasons therefore shall be furnished to the superintendent and the student's parent or guardian pursuant to R.S. 17:416(C)(2)(d)(i). A student removed from the alternative program under these circumstances shall not be permitted to return to the alternative educational program or to the home school until the period of expulsion has ended as provided by R.S. 17:416.2(F).

Additionally, if the principal of the alternative program determines that the reasons for dismissal from the alternative program are sufficiently serious so as to justify the imposition of disciplinary measures beyond removal from the alternative program for the duration of the original expulsion or suspension, then the principal shall recommend expulsion from the Rapides Parish school system as a new disciplinary infraction utilizing the disciplinary and due process proceedings of R.S. 17:416. After completing the due process procedures of that statute, a student who commits an additional serious infraction while enrolled in an alternative disciplinary program may be subject to the due process provisions of R.S. 17:416, be assigned to the alternative school for a new and additional term in lieu of expulsion or may be expelled from the Rapides Parish school system for such additional time period as may be imposed by the superintendent and confirmed by the school board.

COUNSELING

Counseling is mandated for all students referred to the Rapides Alternative Positive Program for Students or the Elementary Alternative Centers for violation of the Substance Abuse Policies regardless of the length of time, whether thirty (30) days or longer.

RECUSAL FOR DISCIPLINE OF IMMEDIATE FAMILY

Any public school administrator or designee shall recuse himself or herself from participating in any investigation or disciplinary matter whenever a member of the administrator's or designee's family is involved. If recusal occurs then the Superintendent or Superintendent's designee shall cover the investigation and disciplinary action.

Immediate family is defined as the individual's children, brothers, sisters, parents and spouse and the children, brothers, sisters and parents of the spouse.

Reasonable Suspicion Testing Process

The administrator's documentation of observations, not a test, are sometimes the key elements in proving the case that a student was impaired. The administrator must be able to testify, in detail, what they saw, heard and/or smelled that indicated that the student was under the influence. An administrator that testifies that the student "seemed high or erratic" merely states a conclusion which is unsupported by any factual evidence. The administrator must be able to testify in concrete terms, such as "the student was staggering and had slurred speech or had a strong odor of alcohol on their breath or marijuana on their body and clothes." Administrators should contact additional school personnel to serve as a witness and to assist with documentation of these observations.

Documentation of the incident in which the student exhibited drunken or drugged behavior is critical to protecting the credibility of the administrator. If the student's guardian challenges any disciplinary action taken, the administrator may be called upon to testify months after the incident occurred. The administrator can avoid having to recall the incident from memory if he/she writes down an account of the incident immediately after it occurs. This documentation should be recorded using the Reasonable Suspicion Checklist. A copy of this checklist should be maintained by the administrator and the Superintendent or his/her authorized designee(s).

Any time a school administrator or other employee observes behavior that indicates a student may be under the influence of alcohol or drugs, the following steps should be followed.

1. The administrator will assess the situation. If there is an immediate threat of personal harm to the individual in question, to others, or the potential for damage to Rapides Parish School Board property, the administrator will notify the local law enforcement agency or appropriate medical personnel. If an immediate threat or medical emergency is not present, proceed to Steps 2 through 8.
2. You should have a general conversation with the student. You may ask how their day is, how they're feeling. While speaking with the student look for indicators that the student may be under the influence of alcohol or drug (examples of indicators are found on the Reasonable Suspicion Checklist). Do not touch the student. Do not leave the student alone. If you believe the student is under the influence contact another school administrator to act as a witness and to later assist with documentation.
3. Following interaction with the student, if the administrator and the witness believe that the student may be in violation of the Rapides Parish School Board Policies Handbook and Student Code of Conduct Policy, the student should be escorted to an area where a conversation with the student may take place in private. All interaction with the student should be handled discreetly and any information obtained should only be shared with those that need to know. At this time the administrator will inform the student of all the observations that have been noted on the Reasonable Suspicion Checklist.
4. The administrator will then contact /consult with the Safe and Drug Free Schools Coordinator to determine if there is sufficient evidence to visit the school to continue further consultation.
5. The school administrator will then notify the student that he/she may be in violation of the Rapides Parish School Board Policies Handbook and Student Code of Conduct Policy based on observations from the Reasonable Suspicion Checklist and that the Safe and Drug Free School Coordinator has been contacted to provide further consultation.
6. Upon arrival at the school location, the Safe and Drug Free Schools Coordinator will review the Reasonable Suspicion Checklist completed by the school administrator. After a determination to proceed has been made by the Safe and Drug Free School Coordinator, the student will be explained the Specific Procedures for Reasonable Suspicion Illegal Drug and/or Alcohol Use Testing.
7. The school administrator will then advise the student that his/her refusal to consent for testing may subject the student to disciplinary action up to and including being recommended for expulsion. After reasonable suspicion has been established by the Safe and Drug Free Schools Coordinator, a student's refusal to submit to drug testing may result in the administration's proceeding as if the test were positive. If a parent or guardian refuses to allow any drug testing to be administered to his/her child, disciplinary action may be taken as if the test were positive.
8. The Safe and Drug Free Schools Coordinator will then proceed with executing the Specific Procedures for Reasonable Suspicion Drug and Alcohol Testing and complete the sample collection process.

Students, teachers and other school employees, or victims of hazing, are directed to report violations of this policy to the school principal or assistant principal who, after investigation, shall, if appropriate, recommend discipline under Section IV of this handbook. If hazing as defined by this policy results in (1) physical injury to a student or (2) threats of bodily harm or property damage which constitute a violation of criminal law, the incident shall be reported to the appropriate law enforcement agency. Persons violating this policy are subject to disciplinary measures up to and including expulsion from the Rapides Parish School System in accordance with R.S. 17:416.

Regardless of the time of year a student comes before the Board for an appeal, the parent and student shall execute a probationary agreement within (5) five days of the Board's decision. No expelled student shall be permitted to re-enter the Rapides Parish School System until the probationary agreement has been signed by the parent and student. STUDENTS WITH DISABILITIES (SWD)

DISCIPLINE PROCEDURES

DISCIPLINE under the INDIVIDUALS with DISABILITIES EDUCATION ACT (IDEA)

[34 C.F.R. Sec. 300.530-536]

IDEA assures "that all children with disabilities have available to them ... a free appropriate public education which emphasizes special education and related services designed to meet their needs." 20 U.S.C. 1400(c)(FAPE). Students are to be given procedural safeguards which are the formal requirements of IDEA that are "designed to afford parents or guardians of Students with Disabilities (SWD) meaningful involvement in the education placement of their children." The procedural safeguards are:

1. The same safeguards afforded regular education students regarding out of school removals are afforded special education students.
2. Stay Put- "During the pendency of any proceedings conducted pursuant to this section, unless the state or local educational agency and the parents or guardian otherwise agree, the child shall remain in the then current educational placement of such child until all such proceedings have been completed." 20 U.S.C. 1415 (e) (3): IDEA 615 U). Student's current placement is defined in the last IEP.
3. A Manifestation Determination Review (MDR) is conducted if the student is recommended for an out of school placement for more than 10 days (including OSS cumulative days) in the same school year.
4. The Individualized Educational Plan (IEP) determines services and placement.

Out of School Suspension (OSS)

Procedures for students removed for a short term out-of-school placement of less than 10 days are: A SWD may be removed from the school setting for no more than 10 cumulative or consecutive days in a school year (at the Principal's discretion) for violating a code of student conduct without an MDR.

The local school administration is required to follow the District due process procedures and complete the following information:

1. **La. Department of Ed. School Behavior Referral Form** listing the behavior subject to disciplinary action.
2. **Informal Due Process Form:** Prior to any suspension or expulsion, SWD must be provided due process of law. The minimum due process procedure must be followed and documented for each suspension by completing the Informal Due Process Form. The due process procedure must be completed as follows:
 - The student must be given notice of the recommended action.
 - The student must be informed of what he/she is accused.
 - The student must be allowed to give his/her version of the incident.
 - The student must sign the due process form. Refusal to sign must be documented.
3. **Input description of incident and prescribed consequence into PowerSchool:** The principal or designee must contact the parent/guardian to inform of the incident and prescribed consequence and enter into PowerSchool within 24 hours of an incident.
4. **Functional Behavior Assessment (FBA):** Students exhibiting a pattern of problem behavior that places him or her at risk of out of school placement may require a Functional Behavior Assessment. It is the school's responsibility through the SBLC/MTSS committee to initiate data collection and contact the School Psychologist, Social Worker and/or Behavior Strategist. Procedures are as follows:
 - a. When a student presents a pattern of at-risk behavior, a functional behavior assessment is initiated through the SBLC committee by collecting data and contacting the School Psychologist and/or Social Worker. Data is collected to establish a baseline.
 - b. After data is collected and the FBA is completed, a Behavior Intervention Plan (BIP) is formulated and implemented. Training of staff and the student is conducted. A copy of the BIP must be maintained by J. B. Lafargue behavior staff for tracking and progress monitoring purposes.
 - c. Referrals to outside services should be made by the behavior team if needed.

NOTE: Any exceptional student who is classified as having an Emotional Disturbance (for externalizing / problematic behaviors) must have a Behavior Intervention Plan in place at the beginning of the school year.

Disciplinary Removals for SWD Beyond "Day 10"

When a student is recommended for removal from his/her current educational placement for more than 10 days in the same school year, the student must "STAY PUT" in his current school setting until a Manifestation Determination Review (MDR) may be conducted by the LEA, parent and relevant members of the IEP team (including the School Psychologist, Social Worker and Behavior Strategist) within 10 school days of the administrator's recommendation. The exception to "Stay Put" is: If the student commits serious bodily injury, drug possession or brings weapons to school (see legal definitions on pages 51-52) - student may be placed immediately at the alternative program and the MDR is conducted within 10 school days of the principal's expulsion recommendation.

A. The School Administration is required to complete the following prior to consideration for alternative educational placement of a SWD:

1. **La. Department of Ed. School Behavior Referral Form** listing the behavior subject to disciplinary action.
2. Informal Due Process Form-Prior to an expulsion, all students must be provided due process of law. The due process procedure must include the following steps:
 - The student must be given notice of the recommended action.
 - The student must be informed of what he/she is accused.
 - The student must be allowed to give his/her version of the incident.
 - The student must sign the due process form. Refusal to sign must be documented.
3. **Principal's Investigative Report** - must be completed prior to the meeting and available for the MDR committee.
4. **Input description of incident and prescribed consequence into PowerSchool:** The principal or designee must contact the parent/guardian to inform of the incident and prescribed consequence and enter into PowerSchool on the date administration recommends a removal that constitutes a change of placement (e.g., extended suspension or expulsion).

* * Note : A copy of these completed forms must be sent to the Director of Special Education (or designee) and the Director of Student Welfare and Attendance within 1-2 days of the administration's recommendation to expel a SWD.

B. Manifestation Determination Review (MDR) and IEP process:

1. Contact the MDR Committee PRIOR TO scheduling the meeting.
2. The MDR committee is comprised of:
 - The district representatives for the behavior team including the School Psychologist, Social Worker and Behavior Strategist
 - The parent and relevant members of the IEP team as determined by the parent and the district
 - The disciplinary administrator recommending the removal from school should not attend the MDR
3. Schedule the MDR with the parent(s) utilizing the attached MDR Prior Notice Letter and have them sign in person or send via registered mail. If the parent does not attend, a second written attempt to schedule the meeting must be made as soon as possible for an alternative date and time. The MDR is to be completed at the second attempt even if the parent does not attend. Verbal consent is acceptable after the second attempt. Verbal consent must be documented on a contact log and copies of the MDR are sent to the parent/ guardian.
4. Provide a Louisiana's Educational Rights of Exceptional Children Booklet for the parent/guardian.
5. An MDR must take place within 10 school days of the principal's recommendation for expulsion (or any other removal beyond 10 cumulative days due to a violation of the student code of conduct). The MDR committee will base the review on a "yes" or "no" answer to the following two questions:
 - If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
 - If the conduct in question was the direct result of the LEA's failure to implement the IEP (Sec. 300.530 (e)(1)-(2))
6. If there is a disagreement between committee members, the Dissent Statement Form is completed by that party (J. B. Lafargue staff will bring this form to the meeting).
 - If the disagreement is between the parent and the school and behavior team, the parent is provided a Right's Booklet and the dissent form is completed. The student will attend the alternative program.
 - If the disagreement is between the school and the behavior team and parent, the Superintendent will determine the final outcome. The student will "Stay Put" at school until the final determination is made.

7. A Functional Behavior Assessment (FBA) must be completed if the conduct in question is found by the MDR committee to be a manifestation of the student's disability. Documented interventions and data collection are required to complete the FBA. (Exception: one time incident)

C. IEP

Following the completion of the MDR, The IEP committee discusses the behavior in question, reviews the Behavior Intervention Plan (BIP) if already preexisting and makes recommendations for updated behavior support services.

- If the results of the MDR are that the conduct **is not** a manifestation of the student's disability and school administration recommends placement at the alternative education site (RAPPS), a re- evaluation for significant change of placement and full IEP are required to reflect this change in service provision.
- If the results of the MDR are that the conduct **is** a manifestation of the disability, the student is to return to his former placement and the IEP amended to reflect the results of the MDR (and any additional behavior supports added) **unless** the parent and LEA agree to a change of placement that is considered to be an *appropriate* and *supportive* setting as part of the updated BIP

D. Exception to OSS/Expulsion of SWD

If the "When Lightning Strikes" crisis policy is implemented, do not suspend or expel the student. If assistance is needed, contact a School Counselor, Behavioral Strategist, Social Worker or School Psychologist to assist in the referral. Refer to the "When Lightning Strikes" procedures on the Rapides Parish School Board website at www.rpsb.us under the Child Welfare and Attendance website portal. Exceptions are subject to Superintendent's approval only.

E. Review by J.B. Lafargue

An administrative review of the MDR and IEP shall be completed by J.B. Lafargue Administrative Staff and duly recorded. All findings will be presented to the Rapides Parish Hearing Officer with the Child Welfare and Attendance Office and the school principal.

TRANSITION TO THE ALTERNATIVE PROGRAM

It is the responsibility of the sending school to ensure that the student, the parent/guardian and the alternative site receive the appropriate notification when a student with disabilities is transitioned to the alternative education program. The sending school is responsible for scheduling the student's intake date at RAPPS. **The SWD is to continue "Stay Put" status at his/her home school until the date of scheduled enrollment at the alternative site.** An IEP meeting will be reconvened in 45 days to discuss student progress.

HOMEBOUND SERVICES

Homebound placement may be considered as an alternative educational program if deemed appropriate by the IEP team as a *short duration* service provision option. The Pupil Appraisal staff must be contacted and an evaluation initiated in these cases to determine if/what further steps may be taken by the LEA to educate the student in a less restrictive environment prior to consideration for Homebound.

 - Was the conduct in question caused by, or had a direct and substantial relationship to the student's disability?
 - Was the conduct in question a direct result of the LEA's failure to implement the IEP?
- If the answer to either question is "Yes," it is determined that the conduct was a manifestation of the student's disability. A new FBA and BIP must be implemented and the student's IEP amended to reflect these changes.
- If the answer to both questions is "No," it is determined that the conduct in question was not a manifestation of the student's disability and he/she may be disciplined in the same manner as a regular ed. student. - Participants who disagree with the determination will complete and sign the Dissenting Opinion form.
- Parents will receive the SpEd rights booklet and be informed of the procedures for appeal.

Section 504 Manifestation Determination Guidelines:

For Section 504, manifestation determination is used to mean the evaluation of the relationship between a student's identified 504 disability and the act of misconduct that has resulted in the school's or district's proposed disciplinary action.

If a single proposed suspension or removal from the student's current placement is for ten (10) days or less, the Office of Civil Rights {OCR} has made it clear that a manifestation determination is not required. However, a manifestation determination is required for a change in placement for more than 10 consecutive days. A series of short-term suspensions, each lasting 10 days or less, may be deemed a significant change in placement. This would also require that a manifestation determination decision be held. For these purposes in Rapides Parish Public Schools, the following Section 504 Manifestation Determination Form will be used to reach the decision regarding relatedness of the student's misconduct to the identified 504 disability. If the school Manifestation Determination Committee, after following the guidelines of this form, determines that the misconduct was not related to the student's disability, the disciplinary action can be imposed if it is the same as would be imposed under the same circumstances for a nondisabled student. If the results of the manifestation determination indicate that the conduct was related to the student's disability, the district may not discontinue the educational services to the student. It then needs to reevaluate the student to determine if the current supports are appropriate or should be altered.

When a 504 student is having repeated problems with misconduct, a behavior review should be conducted and interventions suggested for use until a behavior intervention plan can be completed. A behavior intervention plan should be developed and documented as part of the 504 IAP. This would require a 504 IAP meeting to make appropriate changes. The parent/guardian should be offered the opportunity to participate in this meeting. Documentation of notification to the parent/guardian must be maintained. Staff at the school must be in-serviced on the use of this plan along with the student's parent/guardian. This plan must be followed and results documented. If the plan is not successful, the 504 committee, along with the school behavior strategist and parents should reconvene to make adjustments in the plan. The school counselor/behavior strategist should help complete a functional behavior assessment and develop a behavior intervention plan. (Located under Behavior/Special Education/RPSB web page)

A copy of the Section 504 Manifestation Determination should be attached to the suspension/expulsion form(s) that are provided to the R.P.S.B. Discipline Review Committee and a copy also sent to the district 504 Coordinator. This form should also be kept with the student's 504 and discipline records.

Section VI
Vandalism

POLICY JDD

The Rapides Parish School Board recognizes its authority to maintain good order and discipline within the schools of the school district. Therefore, the School Board recognizes the principal's authority to suspend a pupil for a specified period of time in accordance with statutory provisions.

In each case of suspension, the school principal, or his or her designee, shall, prior to any suspension, advise the student of the particular misconduct of which he/she is accused as well as the basis for such accusation, and the pupil shall be given an opportunity at that time to explain his/her version of the facts. The principal/designee shall contact the parent, tutor, or legal guardian of the pupil to notify them of the suspension, and establish a date and time for a conference with the principal or designee as a requirement for readmitting the pupil. Notice shall be given by contacting the parent, tutor, or legal guardian by telephone at the telephone number shown on the pupil's registration card, or by sending a certified letter to the address shown on the pupil's registration card. The principal shall promptly advise the Superintendent or designee of all such suspensions, stating the reasons for the suspensions.

Students suspended for more than ten (10) days shall remain under the supervision of the school system using an alternative education program designed to continue the educational process in an alternative educational placement. The student shall be placed in an alternative school or an alternative education program and shall be required to attend and participate in such school, program, or educational services.

No suspended pupil shall be allowed to leave the school premises during the school day until parent, guardian, or other proper authorities assume responsibility for him/her, unless immediate removal from school due to danger or threat of disruption to academic process is warranted.

If the parent, tutor, or legal guardian fails to attend the required conference within five (5) school days of notification, the truancy laws shall be effective. On not more than one occasion each school year when the parent, tutor, or legal guardian refuses to respond, the principal may determine whether readmitting the pupil is in the best interest of the pupil. On any subsequent occasions in the same school year, the pupil shall not be readmitted unless the parent, tutor, or legal guardian, court, or other appointed representative responds.

In any case where a teacher, principal, or other school employee is authorized to require the parent, tutor, or legal guardian of a pupil to attend a conference or meeting regarding the pupil's behavior and after notice, the parent, tutor, or legal guardian willfully refuses to attend, the principal or his/her designee shall file a complaint, in accordance with statutory provisions, with a court exercising juvenile jurisdiction.

When a pupil is suspended for a second time within one school year, the principal may require a counseling session be held with the parent and pupil by the school counselor. If no counselor is available, the conference may be held with all the pupil's teachers and the principal or other administrator.

Any student, after being suspended on three (3) occasions for committing drugs or weapons offenses during the same school year, shall, upon committing the fourth offense, be expelled from all the public schools of the system until the beginning of the next regular school year, and the pupil's reinstatement shall be subject to the review and approval of the School Board.

The principal and other appropriate personnel shall be required to file written documentation of all suspensions. Said documentation shall include the circumstances surrounding any suspension, the reason for suspension, and any other pertinent facts to the Superintendent or concerning the disciplinary action. The principal shall file copies of his/her report with the Superintendent, other appropriate personnel and the parent or guardian and retain a copy for his/her records.

Upon the seizure by any teacher, principal, school security guard, or other school administrator of any firearm, knife, or other dangerous implement which could be used as a weapon or inflict injury, the principal or his or her designee shall be required to report the confiscation to appropriate law enforcement officials.

Appeal

Any parent, tutor, or legal guardian of a pupil suspended shall have the right to appeal to the Superintendent or his/her designee, who shall conduct a hearing on the merits. If the parent or legal guardian is not present for the hearing after having been properly notified, the hearing may proceed and the results of the hearing shall be mailed to the parent or legal guardian within three (3) school days by certified mail, return receipt requested. The decision of the Superintendent on the merits of the case, as well as the term of suspension, shall be final, reserving to the Superintendent the right to remit any portion of the time of suspension.

The parent or tutor of a pupil who has been recommended for expulsion, including if the recommendation is reduced to a suspension, shall have the right to request review by the School Board of such recommendation, or appeal to the parish district court, as appropriate, in accordance with La. Rev. Stat. Ann. §17:416.

A student found carrying or possessing a knife with a blade less than two (2) inches in length may be suspended by the school principal, but, in appropriate cases, at a minimum, shall be placed in in-school suspension.

11. Whenever a pupil is formally accused of violating state law or school disciplinary regulations, or both, by committing assault or battery on any school employee, the principal shall suspend the pupil from school immediately and the pupil shall be removed immediately from the school premises without the benefit of required procedures, provided, however, that such procedures shall follow as soon as practicable. School officials, in accordance with statutory provisions, shall have total discretion and shall exercise such discretion in imposing on a pupil any disciplinary actions authorized by state law for possession by a pupil of a firearm or knife on school property when such firearm or knife is stored in a motor vehicle and there is no evidence of the pupil's intent to use the firearm or knife in a criminal manner.

SUSPENSION NOT APPLICABLE

1. A student carrying or possessing a firearm or knife for purposes of involvement in a school class, course, or school approved co-curricular or extracurricular activity or any other activity approved by appropriate school officials.
2. A student possessing any controlled dangerous substance that has been obtained directly or due to a valid prescription or order from a licensed physician. R.S. 17:416 a Student suspended or expelled for damaging any property shall not be readmitted until payment in full has been made for such damage, or until directed by the superintendent of schools as provided above per policy JDD. The minimum school day for grades one through twelve shall consist of three hundred eighty (380) minutes of instructional time, exclusive of all recesses. The minimum school year shall consist of one hundred seventy-one (171) days of instruction. However, in order to provide teacher training, provide for the safety and well-being of students, or implement other educational reform efforts, the Rapides Parish School Board may authorize some or all of its schools to modify the total number of instructional minutes per day and instructional days per year as long as the minimum total number of instructional minutes per year is no less than 63,720 instructional minutes.

Revised: May, 2013

ACT 166 of HB 95, Regular Session, 2011

ATTENDANCE

The Rapides Parish School Board believes regular attendance in school accompanied by the responsibility to study and participate in school activities is essential to the learning process. Once a Student arrives at school, he/she is expected to remain and attend each class throughout the day.

Elementary and secondary students shall be present the minimum number of days as required by the Louisiana Board of Elementary and Secondary Education and enumerated in the *Louisiana Handbook for School Administrators*, Bulletin 741, to receive credit for courses taken. Exception can be made only in the event of extended personal illness verified by a physician's, dentist's, or nurse practitioner's statement or if other extenuating circumstances exist and are approved by the Supervisor of Child Welfare and Attendance in consultation with the school principal.

Note: The maximum number of student days is **171 days** equivalent to **64,980 instructional minutes** and equal to **380 minutes per day**.

The first semester dates are: August 08, 2022 - December 20, 2022

The second semester dates are: January 9, 2023 – May 19, 2023

Students in danger of failing due to excessive absences may be allowed to make up missed time in class sessions held outside the regular class time. The make-up sessions must be completed before the end of the current semester and all other applicable policies must also be met.

When a child has been absent from school for **three (3)** consecutive school days or in excess a total of **five (5)** nonconsecutive days the school shall attempt to provide verbal notification and, if such verbal notification cannot be provided, then shall provide written notification to a child's parent or legal guardian.

All students shall be under the jurisdiction of the school during normal school hours. From the time the student arrives at school each day until he or she leaves the school campus in the afternoon. In case a student rides a bus, he or she shall be under the jurisdiction of the school from the time he or she boards the bus until the student exits the bus in the afternoon. Students shall be under the jurisdiction of the school while attending any school sponsored activity either at school or away from school. This shall apply to all students, including athletic teams, pep clubs, band and other student organizations. In disciplinary matters, the Board's authority may extend beyond the limits set forth above in accordance with state law.

PERFECT ATTENDANCE

Perfect attendance requires a student to not be absent from school. If a student is absent for at least one-half (.5) day or he/she shall not have perfect attendance for the school year.

STUDENT ABSENCES AND EXCUSES

The Rapides Parish School Board recognizes that the fundamental right to attend the public schools places upon students the accompanying responsibility to be faithful in attendance. Regular attendance can be assumed to be essential for a student's successful progress in the instructional program. A student is considered to be in attendance when he or she is physically present at a school site or is participating in an authorized school activity and is under the supervision of authorized personnel. This definition for attendance would extend to students who are homebound, assigned to and participating in drug rehabilitation programs that contain a state-approved education component, or participating in school-authorized field trips or other school approved activities.

- Half-day attendance - A student is considered to be in attendance for one-half day when he or she (1) is physically present at a school site or is participating in an authorized school activity and (2) is under the supervision of authorized personnel for more than 25% but not more than half (26%-50%) of the student's instructional day.
- Whole-day attendance - A student is considered to be in attendance for a whole day when he or she (1) is physically present at a school site or is participating in an authorized school activity and (2) is under the supervision of authorized personnel for more than 50% (51%-100%) of the student's instructional day.

STUDENT ABSENCES AND EXCUSES

The principal of a school, or his/her designee, shall notify the parent or legal guardian in writing on or before a student's *third* unexcused absence or unexcused occurrence of being tardy, and shall hold a conference with such student's parent or legal guardian. This notification shall include information relative to the parent or legal guardian's legal responsibility to enforce the student's attendance at school and the civil penalties that may be incurred if the student is determined to be habitually absent or habitually tardy. The student's parent or legal guardian shall sign a receipt for such notification.

Each school shall attempt to provide verbal notification to a child's parent, tutor, or legal guardian, and, if such verbal notification cannot be provided, then the school shall provide written notification to a child's parent, tutor, or legal guardian when that child has been absent from school for six (6) school days in schools operating on a semester basis, and for twelve (12) days in schools not operating on a semester basis. The accumulation of days absent need not be consecutive.

No public elementary or secondary school Student shall be permitted for any reason to absent himself/herself from school attendance during the school day upon his/her own authority. The principal or designee shall make all reasonable efforts to verbally notify the parent or other person responsible for the Student's school attendance of any such prohibited absence by a Student.

TYPES OF ABSENCES

The *days absent* for elementary and secondary school students shall include *non-exempted excused absences*, *exempted excused absences*, *unexcused absences*, and *suspensions*.

- A. ***Non-exempted excused absences*** are absences of two (2) or fewer consecutive school days/incurred due to personal illness or serious illness in the family (documented by acceptable excuses, including a parental note) which are not considered for purposes of truancy, but which are considered when determining whether or not a student is eligible to make up work and tests, receive credit for work completed, and receive credit for a course and/or school year completed.
- B. ***Exempted excused absences*** are absences which are not considered for purposes of truancy and which are not considered when determining whether or not a student is eligible to make up work and tests, receive credit for work completed and receive credit for a course and/or school year completed.
- C. ***Unexcused absences*** are any absences not meeting the requirements set forth in the excused absences and extenuating circumstances definitions, including but not limited to absences due to any job (including agriculture and domestic services, even in the student's own home or for their own parents or tutors) unless it is a part of an approved instructional program. Students shall be given failing grades for those days missed and shall not be given an opportunity to make up work.
- D. ***Suspensions*** are non-exempted absences for which a student is allowed to make up his/her work and is eligible for consideration for credit provided it is completed satisfactorily and in a timely manner. The absence shall be considered when determining whether or not a student may or may not be promoted but shall not be considered for purposes of truancy. Students absent from school as a result of any suspension shall be counted as absent.

EXTENUATING CIRCUMSTANCES

Exceptions to the attendance regulation shall be the enumerated extenuating circumstances below that are verified by the Supervisor of Child Welfare and Attendance or the school principal/designee where indicated. These exempted absences do not apply in determining whether a student meets the minimum minutes of instruction required to receive credit.

Only the following shall be considered extenuating circumstances under which absences shall be exempt from provisions of compulsory attendance laws as verified by the Supervisor of Child Welfare and Attendance, the school principal or designee where indicated. These exempted absences do not apply in determining whether a student meets the minimum minutes of instruction as required to receive credit:

1. Extended personal physical or emotional illness as verified by a physician or nurse practitioner licensed in the state;
2. Extended hospital stay in which a student is absent as verified by a physician or dentist;
3. Extended recuperation from an accident in which a student is absent as verified by a physician, dentist, or nurse practitioner licensed in the state;
4. Extended contagious disease within a family in which a student is absent as verified by a physician or dentist licensed in the state;
5. Quarantine due to prolonged exposure to or direct contact with a person diagnosed with a contagious, deadly disease, as ordered by state or local health officials; or
6. Observance of special and recognized holidays of the student's own faith;
7. As provided by Act 142 of 2008, a child whose parent is a member of the Armed Forces or National Guard and whose parent has been called to duty for or is on leave from overseas deployment to a combat zone or combat support posting shall be granted not more than five school days per school year to visit with the parent prior to the parent's deployment or during the parent's leave and upon returning to school the student shall be permitted to complete all class assignments and tests missed during the absence. For any other extenuating circumstances, the student's parents or legal guardian must make a formal appeal in accordance with the due process procedures established by the school system. Students who are verified as meeting extenuating circumstances and therefore eligible to receive grades shall not receive those grades if they are unable to complete makeup work or pass the course;

8. Absences as verified by the principal or his/her designee as stated below:
 - a) Prior school system approved travel for education;
 - b) Death in the immediate family (not to exceed one week);
 - c) Natural catastrophe and/or disaster
9. Mandated court appearance as verified by a Court Official (Board approval)
10. For any other extenuating circumstances the student's parents or legal guardian must make a formal appeal in accordance with the process procedures established by the LEA.

SCHOOL-APPROVED ACTIVITIES

Students participating in school-approved field trips or other instructional activities that necessitate their being away from school shall be considered to be present and shall be given the opportunity to make up work.

CHILD PERFORMERS

Minors employed to perform or render artistic or creative services under a contract or employment arrangement for two (2) or more days within a 30-day period must receive instruction pursuant to statutory provisions.

WRITTEN EXCUSES

For a student to be eligible to receive credit and make up work following an absence, the student shall be required in each instance to submit parental confirmation of the reasons for the absence. If a student is tardy or absent, the parent or guardian must submit a written excuse, signed and dated, to school authorities upon the student's return to classes, stating the reason for the student's absence from school. A doctor's, dentist's or nurse practitioner's written statement of student's incapacity to attend school is acceptable. LATE ARRIVAL AND PARISH TARDY POLICIES

LATE ARRIVAL POLICY

Grades 6-12

A "Late Arrival to School" is any student that arrives at school and reports to class more than five minutes after the school's tardy bell sounds at the beginning of the school day. "Late Arrivals to School" may be detained until the start of the next class period. The student may be given an un-excused absence for all class time missed and the following disciplinary actions will be administered.

1st offense - Detention (in accordance with the individual school's policy for detention)

2nd offense – Detention

3rd offense - Parent Contact and Detention

4th offense – Suspension

- Any student coming to school five (5) minutes after the tardy bell shall check with the attendance clerk to receive admittance to class.
- Late arrivals may be excused according to Rapides Parish Excused Attendance Policy.
- Disciplinary actions will be repeated for all subsequent offenses.

Note: Students late for the start of school by no more than five minutes after the tardy bell will be considered tardy and the school's tardy policy will be enforced.

TARDY POLICY

Grades K-5/6

Rapides Parish School Board Policy states that after five minutes, the student is considered truant or absent from school.

1. The school day is 380 minutes. All students must be in the classroom when the tardy bell sounds to start the school day.
2. Students will be considered tardy to school if they are not in their classes and seats before the tardy bell rings. The tardy bell will ring five minutes after the sound of the bell that starts the school day.
3. Students arriving after the tardy bell must report to the office with a parent or guardian to be signed in. A reason must be given at that time and a Tardy Slip is issued to the student and kept on file by the teacher.
4. Un-excused habitual tardiness, whether caused by the student or parent, is counterproductive to the educational process. Habitual tardiness will be dealt within the following manner:
 - a. On the first tardy, parents shall be contacted in person or by telephone.
 - b. On the second and third tardy, the student, principal and counselor will have a conference to determine if a problem exists. A letter will be sent to the parents.
 - c. On the fourth tardy, the parents must have a conference at school with the principal and counselor.
 - d. On the fifth and all subsequent tardies, the matter will be turned over to one or more of the following agencies: The Child Welfare and Attendance Office or the Families in Need of Services (FINS).
5. Children should not be checked out of school early, unless it is for an appointment or another absolutely necessary reason. Checking your child out early not only causes them to miss valuable instruction, but can cause an interruption in the instruction of other students.
6. Tardies and early check-outs will be excused for doctor or dentist appointments with a note, attendance at a funeral of an immediate family member, and other extenuating circumstances approved by the principal.

Grades 6-12

Rapides Parish School Board Policy states that students who are tardy to school or class less than five minutes should be treated as a discipline problem. After five minutes, the student is considered truant or absent from school or class. The tardy bell will ring five minutes after the sound of the bell that starts the school day.

Students will be considered tardy if they are not in their classes and seats before the tardy bell rings.

Tardies will be dealt with by each grading period. Tardiness causes classroom disruptions and time may not be available to allow students to make up missed work. Therefore, grades may suffer.

CASES OF HABITUAL ABSENCE OR HABITUAL TARDINESS

A student shall be considered habitually absent or habitually tardy when either condition continues to exist after all reasonable efforts by any school personnel, truancy officer or other law enforcement personnel have failed to correct the condition after the fifth unexcused absence or unexcused tardiness within any school semester. It is the responsibility of the parent or legal guardian of the student to enforce the attendance of the student at the school to which the student is assigned, and the principal of the school or designee shall notify the parent or legal guardian in writing upon a student's third unexcused absence or unexcused tardy and shall hold a conference with such parent or guardian and the parent or guardian shall sign a receipt for the notification. **The parent or legal guardian of any student in kindergarten through grade 8 who is considered habitually absent or habitually tardy shall be in violation of the school attendance law and may be punished by criminal prosecution.** The term 'tardy' shall include, but not limited to, leaving or checking out of school unexcused prior to the regularly scheduled dismissal time at the end of the school day, but shall not include reporting late to class when transferring from one class to another during the day.

EXCUSED TARDY

1. Doctor appointments (doctor's excuse submitted at time of arrival)
2. Attending funerals of immediate family members (parent note submitted upon return)
3. Extenuating circumstances (approved by principal on an individual basis)

All other tardies will be considered un-excused and will be dealt with in the following manner:

- A. First Offense – Detention
- B. Second Offense – Detention
- C. Third Offense – Detention Contact of parent by principal/assistant principal either by phone/letter.
- D. Fourth Offense - Student will serve one School-based Detention with Louisiana Behavioral Report being completed and filed. (Failure to serve assigned School-based Detention shall result in an out of school suspension being assigned)
- E. Fifth and subsequent Offenses - Student will serve a one day out of school suspension at the appropriate detention center and the following agencies will be notified: Child Welfare and Attendance Office, State Child Protection Office, Families in Need of Services (FINS) and the appropriate Juvenile Court.

TRUANCY

Any student who has missed five (5) or more unexcused days from school shall be referred to the Family in Need of Service (FINS) for assistance. All truancy referrals shall be referred to the Juvenile Court by the Director of Child Welfare and Attendance.

THE AMENDMENT TO THE SCHOOL COMPULSORY ATTENDANCE LAW

In accordance with Act 59 of the 2003 legislature, 16 year olds may be exempted from the attendance requirement with the superintendent's permission.

CHECK OUT POLICY

Children should not be checked out of school early, unless it is for an appointment or another absolutely necessary reason. Checking your child out early not only causes them to miss valuable instruction, but can also cause an interruption in the instruction of other students. Early checkouts will be excused for doctor or dentist appointments with a note, attendance at a funeral of an immediate family member, and other extenuating circumstances approved by the principal. Except in cases of extreme personal emergencies, during the last 30 minutes of the school day, no student will be allowed to check out of school.

Grades 6-12

Unexcused checkouts during the school day will be dealt with in the following manner:

Credit recovery courses shall be aligned with Louisiana Board of Elementary and Secondary Education (BESE) approved statewide course content standards for required subjects. Additional instruction to cover standards and grade-level expectations not included in the software programs shall be provided by a teacher properly certified in the content area.

Students earning Carnegie credit in a credit recovery course must have previously taken and failed the course. Students shall not be required to meet minimum attendance requirements for credit recovery courses, provided students have met attendance requirements when they took the course previously or the students' combined attendance during the previous course and the credit recovery course meet the necessary attendance requirements.

PARENT CONFERENCES

The Rapides Parish School Board realizes that communication between home and school is an important factor in establishing a highly effective school program. Planned conferences between parents and teachers are an important way to bring about understanding and close cooperation between the home and school. Communication should be maintained through conferences with all parents, not just with those where academic or other problems suggest the need for better communication.

ACADEMIC CONFERENCES

At least two (2) parent-teacher conferences shall be scheduled by teachers during the first semester of each school year. At least one (1) parent or guardian of the child shall attend or participate in at least one (1) of the scheduled parent-teacher conferences. A teacher need not require a parent or guardian to attend a conference if the conference would be unnecessary due to the student's academic record. Other conferences may be scheduled as the need arises.

If a middle school or high school student has more than one teacher, the parent or guardian may participate in the conference by conference call. The School Board shall direct the Superintendent to establish regulations regarding the failure of the parent or guardian to attend at least one (1) of the scheduled parent teacher conferences. Said regulations shall not include any negative action against the student as a result of the parents/guardians not attending the required parent-teacher conference.

The principal or supervisor should be present at any parent-teacher conference when there is reason to anticipate an atmosphere of hostility.

KINDERGARTEN PARENT CONFERENCES

Reporting of kindergarten students' progress to parents is to be accomplished through conferences.

1. There shall be a fall conference period beginning the middle of October and ending around the middle of November.
2. A spring conference period shall begin around the middle of April.
3. Conferences are to be scheduled with parents before or after the school day.
4. The periodic evaluation of the kindergarten students shall be discussed with the parents at these conferences.

PARENT-TEACHER CONFERENCES CONCERNING GRADES

The parent may request a parent-teacher conference through the principal's office. After notification by a parent requesting a parent-teacher conference, the principal or his/her designee shall schedule the conference as soon as possible.

Conferences shall be scheduled during the teacher's planning period and may not exceed that time period. The principal shall be available to participate in a parent teacher conference upon request by a parent, teacher or both.

PARENT CONFERENCE PRECAUTIONS

1. Parents who want to meet with a teacher concerning grades or discipline shall report to the office and not be allowed to go directly to the teacher's room. This meeting should take place in the principal's office or the guidance counselor's office.
2. If a teacher and parent have had disagreements in the past, the principal should be made aware of this before another meeting is held.
3. If the teacher feels the situation is getting out of control, he/she should seek help or let the volatile situation cool.
4. If a teacher is threatened or attacked, he/she shall report this to the principal immediately.
5. If a teacher is injured as a result of an attack by a parent, the principal shall notify the police and have a warrant filed.

DISCIPLINARY CONFERENCES

Parents may be required to attend a conference with their student's teacher/principal/ guidance counselor under the following circumstances:

1. When a pupil is removed from a classroom by the teacher, the teacher may require that the parent, tutor, or legal guardian of the pupil have a conference with the teacher in the presence of the principal or his/her designee before the pupil is readmitted to the classroom.
2. Upon the third removal from the same classroom during the school year, a conference between the teacher or other appropriate school employee and the pupil's parent, tutor, or legal guardian shall be required prior to the pupil being readmitted to the classroom.
3. In any case where a teacher, principal, or other school employee requires the parent, tutor, or legal guardian of a pupil under eighteen (18) to attend a conference or meeting regarding the pupil's behavior, and, after notice, the parent, tutor, or legal guardian willfully refuses to attend, the principal or designee shall file a complaint with a court exercising juvenile jurisdiction.
4. Subsequent to the suspension or recommendation for expulsion of a student, a conference shall be scheduled with the student's parent, tutor, or legal guardian and the principal, as a requirement for readmitting the student to school. Notification of the conference shall be by telephone, or in certain cases, by certified letter. Such conference shall be held within five (5) school days of mailing the certified letter or other contact. On not more than one occasion each school year when the parent, tutor, or legal guardian refuses to respond, the principal may determine whether readmitting the pupil is in the best interest of the student. On any subsequent occasions in the same school year, the pupil shall not be readmitted unless the parent, tutor, legal guardian, court, or other appointed representative responds.
5. When a pupil is suspended a second time within one school year, the principal may require that a counseling session be held with the parent, pupil, and the school counselor. If no counselor is available, the principal may require a conference between the parent, pupil and all the pupil's teachers and the principal or other administrator.
6. Upon a student's third unexcused absence or unexcused tardy, the principal or his/her designee shall notify the parent or legal guardian in writing and shall hold a conference with the parent or legal guardian. The parent or legal guardian shall sign a receipt acknowledging notification. Tardy, for the purposes of this enumerated item, shall be as defined in La. Rev. Stat. Ann. §17:233.

Students' Rights and
Responsibilities

STUDENTS' RIGHTS AND RESPONSIBILITIES

INTRODUCTION

Students, as citizens of the United States, are guaranteed certain individual rights and have corresponding individual responsibilities. While students' rights in most cases are specific, students' responsibilities are implied. The word "responsibility" in this context refers mainly to the individual's obligation to others within his society, because, in order for an individual to preserve his/her rights, each must take upon himself/herself a sense of responsibility toward the preservation of the rights of others. Parents, teachers, and administrators have a responsibility, indeed a duty to protect the rights of students while maintaining an educational atmosphere conducive to the teaching, learning process. The concept of balancing the rights of the individual with the rights of society is as valid in the educational community as in the larger community. Responsibilities then become the foundation upon which individual rights become meaningful and effective.

If one were to enumerate the various responsibilities incumbent upon students, the list would be endless. However, within a school setting and in society, there are certain special responsibilities required of a citizen, who is a student in school that are of vital significance.

Each student has the responsibility to:

1. Become informed of and adhere to reasonable rules and regulations established by the local School Board and implemented by administrators and teachers.
2. Respect the human dignity and worth of every other individual.
3. Refrain from libel, slanderous remarks and obscenity in verbal and written expression.
4. Study diligently and maintain the best possible level of academic achievement.
5. Be punctual and present in the regular school program to the best of his/her ability.
6. Dress and groom in a manner that meets reasonable standards: health, cleanliness, safety, and the dress code.
7. Help maintain and improve the school environment; reserve school property and exercise the utmost care while using school facilities.
8. Refrain from gross disobedience, misconduct or behavior that disrupts the educational process.
9. Respect the reasonable exercise of authority by school administrators and teachers in maintaining discipline in the school and at school sponsored activities.
10. Continue to become actively involved in one's education, understanding of people and preparation for adult life.

Rapides Parish School Board is committed to providing the best education possible for every student in Rapides Parish regardless of race, sex, religion, handicap or national origin. In order to meet its commitment to guard and maintain for all students the right to equal opportunity in education and to assure an atmosphere conducive to learning while protecting the United States Constitution and its Amendments. The Rapides Parish School Board has adopted this "Statement of Policy" concerning student rights and responsibilities.

Every school in itself is a community made up of students, teachers, principals, and other school service staff. The school, as a community, exists and operates subject to policies and laws which guide the conduct of its members. The function of policies and laws is to assure the community membership that individual rights, privileges and freedoms will not be abridged by disruptive behavior of individuals or groups.

The primary goal of the school is to provide a quality education for all of its students. The rights and responsibilities contained in this booklet have been adopted by the Rapides Parish School Board to achieve this goal. It is the responsibility of everyone in the school community to respect and accept student rights, recognize and support student responsibilities, and utilize administrative policies for the betterment of the educational process in the school system.

Section XI
Transportation

TRANSPORTATION

An undisciplined school bus is a hazardous bus. Student misbehavior can lead to accidents. The school bus operator must concentrate on the driving task at hand and cannot be expected to constantly supervise the students while the bus is in motion. Therefore, for the safe operation of the school bus, students should be aware of and obey the following safety rules as a minimum:

1. Cooperate with the school bus operator because your safety depends on it.
2. Be on time because the bus will not wait.
3. Cross the road cautiously when waiting for and leaving the bus.
4. Follow school bus operator's instructions when loading and unloading.
5. Remain quiet enough so as not to distract the school bus operator.
6. Have a written permission form and be authorized by the principal to get off at a stop other than your own.
7. Be courteous and safety-conscious to protect your riding privilege.
8. Do not stand when a seat is available and the bus is in motion.
9. Do not extend arms, head or other objects out of windows and doors.
10. Do not throw objects in the bus nor out of windows or doors.
11. Do not use the emergency door except for emergencies.
12. Do not eat or drink on the bus.
13. Do not damage the bus in any way.

BUS CONDUCT RULES AND REGULATIONS

1. Students must be on time at the designated stop.
2. Students must obey the school bus operator promptly and without argument.
3. Students must help to keep the bus clean and sanitary. Anyone who damages the bus will be required to pay the damages.
4. Arms and head must be kept inside the bus windows at all times. Nothing is to be thrown out of the windows.
5. There should be no moving around while the bus is in motion. If assigned to a seat by the school bus operator, stay in that seat.
6. Loud talking will not be tolerated.
7. Students must obtain permission from the school bus operator before opening a window when it is cold or raining. The middle aisle shall be kept open at all times.
8. No student will be allowed to ride another bus or be discharged at a different stop unless he has written permission from his parents, approved by the Principal or the Supervisor of Transportation.
9. School bus operators are permitted to make reasonable rules for the safety of children and the proper operation of buses. The school bus is an extension of the classroom and all students are

expected to abide by all rules of the Rapides Parish School Board. Any violation of the above rules and regulations shall result in disciplinary action in the form of a suspension or an expulsion.

10. The middle aisle shall be kept open at all times.
- Parents should understand their responsibility of working with the school bus operator and the school system personnel for the welfare and safety of their children. Also, emphasis should be placed on the problems involved with safe transportation and the extent of responsibility placed on school bus operator transporting their children.

Responsibilities of parents are as follows:

1. Have children ready and at their designated pickup points on the route.
2. Cooperate with school and bus school bus operator in teaching children safety precautions, good manners and habits.
3. Assist when there are disciplinary problems.
4. Sign all documents required by the local system to acquire transportation for their students.

TRAINING FOR SCHOOL BUS OPERATORS

As a means of reducing the number of disciplinary problems encountered by bus school bus operators, a yearly in-service training program is required for all school bus operators.

TRANSPORTATION DISCIPLINE ON THE BUS

STUDENTS SHALL BE DISCIPLINED FOR INAPPROPRIATE BEHAVIOR ON THE SCHOOL BUS.

If a student behaves inappropriately on the bus, the school bus operator shall provide a bus referral to the school principal and the principal may suspend the student for one (1) to five (5) days from the bus. If the behavior warrants an expulsion from the bus, the principal may expel the student from the bus. There may be situations in which the behavior may warrant either a suspension or expulsion from school or School Board Policy may require a suspension or a recommendation for an expulsion from school. In the case of the student being suspended or recommended for an expulsion from school, procedures for suspension or recommendation for expulsion from school shall be followed.

NOTE: A suspension or expulsion from the bus only is not a suspension or expulsion from school or a suspension or expulsion of record. The student continues to attend school.

PROCEDURES APPLICABLE TO VIOLATIONS OF DRESS AND APPEARANCE REGULATIONS

- 1) Upon being advised of a student not being in compliance with the dress or appearance policy, the school principal or designee should confer with the student in an office setting and advise the student of the nature of the dress or appearance infraction and obtain the student's response. A written record should be made of the conference and the student should be encouraged to remedy the violation voluntarily to eliminate the necessity of any disciplinary action. An attempt should be made to contact by telephone, the parent(s) or guardian(s) of students under age 18 in an attempt made to remedy the violation without the necessity of formal discipline.
- 2) From the time of the initial conference with the school administrator, the student should be removed from class or the student population until either the end of the school day or the correction of the dress or appearance violation on that day.
- 3) Should the student return to school the next school day in violation of the dress or appearance regulations, the school principal or designee should confer with the student to determine whether the violation is willful, persistent or deliberate. A written record of the conference and the determination of whether the violation is willful, deliberate or persistent should be made. A second attempt to contact the student's parent(s) or guardian(s) and advise the parent(s) or guardian(s) of the situation should be made and the administration should make a brief note of the response of the parent(s) or guardian(s). The student should again be removed from the classroom setting but remain in school until the end of the school day or a remediation of the violation, whichever occurs first.
- 4) If the principal or designee, upon conferring with the student or parent, determines that the violation is deliberate or persistent and is unlikely to be resolved without the imposition of formal discipline, the school administrator shall initiate and follow the formal due process provisions for suspension and/or, in an extreme case, expulsion of the student presently found in *Section IV* of the *Rapides Parish School Board Policies Handbook and Student Code of Conduct*. A student enrolled in grades pre-kindergarten through 5 shall not be given an out-of-school suspension or expulsion or suspended from riding the bus for a uniform or appearance violation unless a determination is first made by the principal that the uniform violation is tied to a willful disregard to school policies by the student. (This last sentence should be included only if SB54 of 2015 passes and becomes law.)

STUDENT TRANSFERS FROM OUT OF THE PARISH

Students who move into Rapides parish from another parish or state will have five school days to be in compliance with the dress code.

DISCRIMINATION

There shall be no discrimination in regard to race, sex, religion, handicap, or natural origin in the Rapides Parish School System.

SEXUAL HARASSMENT

The Rapides Parish School Board recognizes that sexual harassment can be a violation of state and federal law. The Board, therefore, shall not tolerate sexual harassment on the part of any employee towards another employee or a student within the workplace. Conduct in violation of this prohibition shall result in disciplinary measures, up to and including dismissal.

DEFINITION

Harassment on the basis of sex is defined as any unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when:

1. Submission to such conduct is made either explicitly or implicitly as a term or condition of any individual's employment/education.
2. Submission to or rejection of such conduct by an individual is used as a basis for employment/education decisions affecting the individual.
3. Such conduct has the purpose or effect of unreasonably interfering with an individual's work/education or creating an intimidating, hostile, or offensive working/educational environment. Incidents of sexual harassment may include verbal harassment such as derogatory comments, jokes, or slurs, or remarks or questions of a sexual nature; physical harassment such as unnecessary or offensive touching; and visual harassment such as derogatory or offensive posters, cards, cartoons, graffiti, drawings, looks, or gestures. Harassment does not only depend upon the perpetrator's intention, but also upon how the person who is the target perceives the behavior or is affected by it. Individuals who experience sexual harassment from coworkers or others should make it clear that such behavior is offensive to them.
4. Additionally R.S. 17:81Q prohibits electronic communication by school employees with students except under limited circumstances as defined by board policies. Such prohibited communications constitute harassment or intimidation and may subject the employee to discipline, dismissal or criminal prosecution as determined by applicable policies and statutes.

REPORTING PROCEDURES

In the event that an individual believes such instances require a remedy or that there is a basis for a complaint, the individual shall first discuss the issue with the individual's principal or immediate supervisor. Should no resolution occur to the satisfaction of the individual after five (5) days, a formal complaint may be filed. If the victim of the alleged sexual harassment is a minor student and if the alleged harassment falls within the definition of "abuse" as defined by the Board's policy on child abuse (Policy JGCE), then all school employees with knowledge are mandatory reporters and the allegations must be reported to child protection or law enforcement as provided by state law and the Board policy on child abuse. Such reporting must be made in addition to any procedures under this sexual harassment policy. If the victim of the sexual harassment is a student and the accused perpetrator is another student or is an individual not employed by the School Board, the victim shall report the incident(s) to the school guidance counselor, assistant principal, or principal as soon as practicable. If, after investigation, the allegations are determined to be well founded, the offending student shall be subject to suspension or expulsion under the Board's normal student disciplinary policies. Additionally, Board employees who become aware of such allegations should report them to child protection or to law enforcement agencies in accordance with the Board's mandatory reporting policies and state law if the offending conduct rises to the level of child abuse or neglect as therein defined. Failure of the victim to promptly report acts of sexual harassment shall not standing alone constitute a defense to discipline or dismissal and shall only be one factor in evaluating the validity of the allegations under this policy.

STEP 1 EMPLOYEE

If any employee has concerns or a complaint about the nature of any conduct or physical contact by another employee of the school district, the individual should file a formal written complaint with the Personnel Department or with the Superintendent. The receiving office will be charged with investigating the complaint and attempt to remedy it to the mutual satisfaction of all parties involved within five (5) working days of the date of receipt of the complaint. The investigating office shall indicate its disposition of the complaint in writing and shall furnish copies to all concerned parties.

STEP 1 STUDENT

If a student has concerns or a complaint about the nature of any conduct or physical contact by an employee of the Rapides Parish School Board, the student should contact either the school administrator or the school counselor. The school administrator will report the alleged incident to the Superintendent or his/her designee. The school administrator and the Superintendent or his/her designee will be charged with investigating the complaint and attempt to remedy it informally to the mutual satisfaction of all parties involved within five (5) working days of the date of receipt of the complaint. The investigating office shall indicate its disposition of the complaint in writing and shall furnish copies to all concerned parties. If the complaint constitutes a moral offense against a student as defined by Board policy, the procedures of that policy shall be invoked in lieu of any procedures under this sexual harassment policy.

STEP 2 - (EMPLOYEE AND/OR STUDENT)

In the event any of the concerned parties are not satisfied with the disposition of the complaint at Step One (1) or if no disposition has been made, then the concerned party may appeal to the Sexual Harassment Panel. The Sexual Harassment Panel shall include a chairperson, three males and three females selected by the Superintendent. The Sexual Harassment Panel has seven (7) working days to schedule a hearing. If harassment is found, the panel may exercise one of the following options:

1. The panel may require an appropriate remedy which seeks to redress the wrong. Noncompliance with the remedy will result in disciplinary action.
2. The panel may recommend to the Superintendent that documentation be placed in one's evaluation folder, short or long term suspension with or without pay, or dismissal. The Sexual Harassment Panel shall give written disposition of the complaint within five (5) days of such hearing and shall furnish copies to the appropriate parties and to the Superintendent.

STEP 3 - (EMPLOYEE AND/OR STUDENT) Revised 10/2007

In the event the parties concerned are not satisfied with the disposition of Step Two (2) or if no disposition has been made within five (5) days of such meeting, the parties concerned may appeal to the Superintendent. The appeal shall be in writing and set forth the same information as in Step Two (2). The Superintendent within thirty (30) days shall meet with the appropriate parties. Disposition shall be made no later than five (5) days after the meeting. A copy of such disposition shall be furnished to the appropriate parties.

STEP 4 - (EMPLOYEE AND/OR STUDENT)

In the event the parties concerned are not satisfied with the disposition of the appeal at Step Three (3), or if no disposition has been made in Step Three (3), the concerned parties may appeal to the Rapides Parish School Board. The appeal shall be in writing and shall request that the Superintendent place the concern on the agenda of the next regularly scheduled Board meeting. Such written request must include copies of all decisions previously rendered in connection with the complaint.

Any employee who becomes aware of any allegation of possible harassment shall report such allegations to the Superintendent or designee. All reports received shall be properly and adequately investigated. Appropriate disciplinary action shall be taken when violations of this policy have been determined. The Board shall prohibit retaliation against an employee or student for a complaint made or for participating in an investigation of alleged harassment, unless, after investigation, it is found that the accuser has made a willfully false accusation in which case the accusing employee or student shall be subject to discipline or dismissal under the Board's standard due process provisions.

Nothing contained in this policy and/or procedure shall restrict or diminish the authority of the Superintendent to suspend or terminate any employee in accordance with the policies of the Rapides Parish School Board, state law and applicable statutes.

Failure to meet any procedural deadline imposed herein shall not be cause for dismissal of proceedings absent the demonstration of material prejudice by the affected person.

However, Act No. 658, Section 416.3 of Title XVII of the Louisiana Revised Statutes of 1950 makes the following provisions relative to the search of students' persons, desks, lockers, and other school areas when searching for contraband, illegal drugs or weapons.

A. (1) The parish and city school systems of the state are the exclusive owners of all public school buildings and all desks and lockers within the building assigned to any student and any other area of any public school building or grounds set aside specifically for the personal use of the students. Any teacher, principal, school security guard, or administrator in any parish or city school system of the state may search any building, desk, locker, area, or grounds for evidence that the law, a school rule, or parish or city school board policy has been violated.

(2) The teacher, principal, school security guard, or administrator may search the person of a student of his personal effects when, based on the attendant circumstances at the time of the search, there are reasonable grounds to suspect that the search will reveal evidence that the student has violated the law, a school rule, or a school board policy. Such a search shall be conducted in a manner that is reasonable related to the purpose of the search and not excessively intrusive in light of the age or sex of the student and the nature of the suspected offense.

B. If any teacher, principal, school security guard, or administrator in the public school system is sued for damages by any student, the parent of any student, or other person qualified to bring suit on behalf of the student, based upon a search of that student's person, desk, locker, or any other area of a school building or grounds set aside specifically for that student's personal use, when the teacher, principal, school security guard, or administrator reasonably believed that the student had weapons, illegal drugs, alcohol, stolen goods, or other materials or objects the possession of which is a violation of the parish or city school board policy on his person, or had reasonable belief that such desk, locker, or other area contained such items, or based upon a search using a metal detector, it shall be the responsibility of the school board employing such teacher, principal, school security guard, or administrator to provide the defendant with legal defense, including reasonable attorney's fees, investigatory costs, and other related expenses.

C. Lockers shall be opened in the student's presence when administratively feasible.

D. A student not present shall be informed of the search.

E. Items which are specifically prohibited by law, Board policy or school regulation shall be impounded. The principal or designee shall report the discovery or confiscation of the following items or materials to the law enforcement officials:

1. Any firearms, explosives, bombs, knives or other implements which can be used as weapons or the careless use of which might inflict harm or injury.
2. Any controlled dangerous substance as defined in R.S.40:961 (7).

Any implement or material required to be reported to law enforcement officials as provided above shall be retained and secured by the administrator in such a manner as to prevent the destruction, alteration or disappearance of the item or material until such time as the law enforcement authority either takes custody of the implement or material, or provides notice to the school principal or administrator that it need no longer be retained. If law enforcement advises that the material or implement need not be retained, the administrator shall forward the material to the office of the superintendent, and the superintendent or designee may confiscate the item or material and have it destroyed or donated to appropriate law enforcement agencies, or may return it to the parent or guardian of the student as the superintendent in his or her discretion may deem appropriate.

F. The student shall be given a receipt for any items impounded by school administrators and parent or guardians shall be notified of any items impounded.

- G. A written record shall be made, thereof, by the person conducting the search and shall include the name of the person involved, the circumstances leading to the search and results of the search.
- H. Any search of a student's person shall be done privately by a teacher or an administrator of the same sex as the student to be searched.
- I. When a search of a student's person is conducted, at least one witness, who is an administrator or teacher also of the same sex as the student, shall be present throughout the search.
- J. Violation of this policy by a teacher, administrator or other school board employee shall be referred to the superintendent for appropriate disciplinary action as provided by board policies and applicable state law.

SEARCH OF NON-STUDENTS ENTERING PUBLIC SCHOOL BUILDINGS OR GROUNDS

Any school principal, administrator or school security guard may search the person, handbag, briefcase, backpack, purse or other objects in possession of any person who is not a student enrolled at the school or a school employee while said person is in any school building or on the school grounds, either by conducting a random search with a metal detector or by a reasonable physical search of the person's clothing or other possessions, when there is a reasonable suspicion that such person has any weapons, illegal drugs, alcohol, stolen goods or other materials or objects, the possession of which is a violation of the school board's policy or state law. Said search shall be conducted in a manner that is reasonable related to the purpose of the search and, if a search of the clothing or person of the party is conducted, it shall be conducted by a school employee or administrator of the same sex as the person to be searched. Except, when circumstances make it impracticable, the search of a non-student's person or clothing which is worn on the body should be conducted in a room or other private area and should be witnessed by an additional school employee of the same sex as the person to be searched. Any contraband or other illegal items, the possession of which violates state law or school board policy, which are found as a result of the search shall be impounded by the school board employee or administrator and the appropriate law enforcement agency notified.

METAL DETECTORS

Random searches with a metal detector of students of their personal effects may be conducted at any time, provided they are conducted without deliberate touching of the student.

**GUIDELINES FOR USE OF METAL DETECTORS
RAPIDES PARISH SCHOOLS
PURSUANT TO R.S. 17:81 (L)**

POLICY:

The Rapides Parish School Board, to help ensure the safety of its students and employees, has approved the use of metal detectors in schools. Strict guidelines will be followed to ensure that searches conducted with a metal detector are lawful, unbiased, and respectful of the right of privacy.

PURPOSE:

School systems in Louisiana are faced with ever-increasing violence and the use of weapons on or adjacent to school campuses and at after-school social functions. In this connection, it is generally believed that a so-called wand metal detector could prove useful as a deterrent when utilized in a publicized random search program. The purpose of these guidelines is to deter students from bringing weapons onto school property, thus reducing the potential for violent incidents.

NOTIFICATION:

- (1) Signs shall be posted outside the entrances to School Board facilities in order to provide notice to all persons that they are subject to search as a condition of entry.
- (2) The parents or guardians are hereby notified that random searches will be conducted.

RANDOM SEARCHES

- (1). Search students at random as they enter school, enter the cafeteria and leave school; search all of every third, fourth, or fifth student.
- (2). Select at random an entire class to search upon entering, and/or upon leaving the classroom.

DETECTOR SEARCH PROCEDURE

When conducting a detector search of a student or individual, the administrator shall request that all metal objects be removed from pockets and placed on a tray, along with any bags or parcels being carried. If the detector activates on the individual, the administrator conducting the search shall request that any remaining metal objects be removed. If the detector activates again, the individual should be taken to a private area and personally searched by a search team member of the same sex. A witness of the same sex should be present during this portion of the procedure. Strip searches are prohibited. Once the object causing the metal detector to activate has been removed, the individual shall be searched again with the metal detector, and the search will continue only if the detector activates again. A physical exam will be made of all bags and parcels belonging to the individual.

DISCOVERY OF CONTRABAND

Should an individual be found in possession of contraband (such as weapons, illegal drugs, or other prohibited objects), the search team member shall notify the appropriate school official and/or law enforcement officer. The law enforcement officer shall take custody of all weapons and illegal drugs. The administrator should attempt to notify parents of a student when a discovery of contraband has been made.

In the event concealed contraband is detected or suspected and the student refuses to produce the object the law enforcement officials shall be called to conduct a search.

RETURN OF PROPERTY

All property removed from an individual that is not prohibited by law or School Board policy and is appropriately possessed shall be returned to the individual.

SCHOOL GROUNDS

Following completion of a search of students, the search team should conduct a perimeter search of the school grounds for weapons or other contraband.

STUDENT ACCESS TO AUTOMOBILES

During the school day, students shall not enter automobiles on or near campus without permission from the teacher or principal. This will reduce student access to weapons or contraband.

- H. Student names, addresses and telephone numbers are not public records accessible upon request by the general public (R.S. 44:4(29) (a).

DIRECTORY INFORMATION - FERPA

In order to give parents notice as required by the policy, when the student handbook is prepared for the 2013-14 school year, a paragraph should be inserted in the "Student Records" section of the handbook to provide as follows:

Parents/guardians of students and students eighteen years of age or older are hereby notified of their rights to restrict the public release of certain information concerning the student in accordance with the Family Educational Rights & Privacy Act of 1974 (FERPA) and the No Child Left Behind Act of 2001. CONSENT FOR RELEASE OF RECORDS CONTAINING PERSONALLY IDENTIFYING INFORMATION OF STUDENTS INCLUDING GRADE TRANSCRIPTS AND RECORDS FOR STUDENTS IN GRADES 8-12 REQUIRED FOR COLLEGE ADMISSION APPLICATIONS

Recent changes to State law (R.S. 17:3913-3914 and Act 228 of 2015) require that parental/guardian consent be obtained before schools or school personnel can release information, including a student's full name, which might be used to identify a particular student. A detailed consent form is found at the end of this Handbook and in order to permit schools to release traditional information regarding club and athletic participation, graduation programs, school yearbooks and more importantly, student grade transcripts to colleges to which a student is applying for admission, the parent/guardian must sign the written permission document and return it to the school's admitting office for filing. In compliance with recent state enactments, the document is detailed and provides that if consent is given it may be revoked by a written revocation signed by the parent/guardian and delivered to the school with a copy to the Rapides Superintendent of schools. Whether the consent is signed or not personally identifying student information will be released or provided by school personnel only in accordance with Federal or State law or Board policies applicable to providing this type of information to various agencies or, in the case of student accomplishments or participation in school activities, to media.

FREEDOM OF RELIGION

Students' religious beliefs are their own and should be respected; therefore, nothing shall permit the imposition of another's religious beliefs or teaching of any students.

SPECIAL EDUCATION AND TRAINING

Louisiana law provides for educational training abilities and opportunities for the handicapped. It is the responsibility of the public school system of Louisiana, both from the local and state levels, to offer the best available educational, learning, and training facilities, services, classes and opportunities to all children of school age within their respective boundaries. Parish school boards must provide transportation for special education students when such transportation is necessary.

No student however, may be excluded from regular classes because of mental or physical disability or handicap unless this is the placement decision of the Student IEP Committee.

A personal consultation with the parent or guardian must be provided. The parent or guardian shall have the right to have the child retested by the other competent public or private authorities, and if the retesting justifies, to determine the correct evaluation in the district court or juvenile court of the parish where the student lives. A student may be excluded from regular classes or from special education classes for disciplinary reasons. In keeping with the special education discipline policy, no child who is handicapped, including emotionally disturbed shall be assigned to a class for the handicapped because of disciplinary reasons.

TITLE IX

A. GENERAL

In June 1972, the Congress passed Title IX of the Education Amendment, a law which affects virtually every educational institution in the country. The law prohibits discrimination by sex in educational programs that receive federal funds. The law states in part that, "No person in the United States shall on the basis of sex be excluded from participation in, be denied the benefits of, or be subject to discrimination under any education program or activity receiving federal financial assistance." Male and female students must be eligible for benefits, services, and financial aid without discrimination on the basis of sex.

B. MARRIAGE AND PREGNANCY

Any school or education program or activity receiving federal assistance shall not apply any rules concerning a student's actual or potential family, or marital status which treats students differently on the basis of sex.

A student shall not be discriminated against, nor excluded from the education program or activity, including any class or extracurricular activity, on the basis of such student's pregnancy, termination of pregnancy or recovery there from, unless the student requests voluntarily to participate in a separate portion of the education program or activity of the school. A school may require such a student to obtain the certification of a doctor that the student is physically and emotionally able to continue participation in the normal education program or activity so long as such a certification is required of all students for other physical or emotional conditions requiring the attention of a doctor. Instructional programs (outside or away from the regular school setting) for pregnant students must be comparable to that offered to non-pregnant students. Pregnancy must be treated in the same manner as any other temporary disability. At the conclusion of the disability, the student shall be reinstated to the status held before.

EXPECTANT AND PARENTING STUDENTS

The Rapides Parish School Board is cognizant of the problems of marriage, pregnancy and parenthood among students prior to their graduation from high school. The School Board authorizes the Superintendent to assure that such students have the opportunity to earn the education which they deserve.

It is recommended that a pupil who becomes pregnant shall notify the principal or guidance counselor in writing immediately upon knowledge of the condition. Pregnant pupils will be permitted to continue in school in all instances when continued attendance has the sanction of the expectant mother's physician. A physician's statement shall be submitted stating the pupil's medical condition, approval for continued attendance, and

activities in which the pupil may not participate. The student shall keep the school administration continually apprised of her progress. The school shall not be held responsible for any medical problems that may arise with a pregnant pupil while she is in school.

Should the student need to be absent from school for a prolonged period of time, the student may enroll in the School Board's homebound instruction program until released by her physician to return to regular classes. Any student who is not able to return to regular classes shall be encouraged to enroll in an appropriate alternative education program.

Marital, maternal, or paternal status shall not affect the rights and privileges of pupils to receive a public education nor to take part in any extracurricular activity offered by the schools.

After delivery, the student shall be permitted to return to school as soon as she is physically able, upon certification by her physician.

In regard to each expectant and parenting student, each school and the Rapides Parish School Board shall:

1. Maintain confidentiality in regard to the student;
2. Ensure a safe and supportive learning environment for the student;
3. Promote academic success for the student;
4. Utilize sensible attendance policies, taking into account all necessary factors; and,
5. Provide a supportive school environment that promotes high school graduation.

Section XV
Alcohol and Drugs

SUBSTANCE ABUSE POLICY

PHILOSOPHY

The Rapides Parish Public School Board recognizes that “the use of illicit drugs and the people using alcohol and controlled dangerous substances are not making the intellectual gains that they should and are not developing the coping skills that they need.

(Federal Register - 86.200)

Therefore, it is in the best interest of the community and the youth we serve that we take steps to promote, enhance and maintain an alcohol and drug free student body for the total school system. Along with parents and other segments of the community, we have a role to play in helping students remain alcohol and drug free.

As a result of La. R.S. 14:403.1, each school in the Rapides Parish School System shall include a program on substance abuse prevention, intervention and aftercare, to include informational and support strategies.

DUTY OF EMPLOYEES

All employees shall immediately notify the home school principal of any student whom they have reasonable cause to believe is in violation of the substance abuse policy and the principal shall conduct such investigation as the principal deems appropriate, and then promptly conduct an informal hearing with the student. If the principal decides the student has violated the policy, he shall then promptly:

1. Notify the proper law enforcement agency of the incident and when the law enforcement officer arrives, present to him any drugs or alcohol seized from the student and obtain a receipt of the same from the law enforcement officer. The law officer shall decide whether or not the student shall be arrested by the officer. The principal shall not at any time retain any drugs or alcohol seized from students on campus.
2. Every reasonable attempt shall be made to notify parents or guardians of the involved student.
3. Notify the superintendent or designee by telephone of the incident. This shall be followed promptly by a written “Substance Abuse Suspension Report” sent to the Superintendent and the Drug Free School Coordinator.

CONSENT FOR ALCOHOL OR DRUG TESTING

Attendance at school or a school function or entrance on school bus or other means of school related transportation by a student exhibiting behavior or activities or symptoms which reasonable support a suspicion that the student is using or possessing alcohol or drugs shall constitute student and parental consent for alcohol or drug testing of the student and permission to the testing agency to release the test results to the principal or the superintendent or designee.

REFERRAL FOR ALCOHOL OR DRUG TESTING

- a. WHERE THE OFFICER DECIDES TO ARREST THE STUDENT for intentional distribution of, or possession with intent to distribute any illegal narcotic, drug, or other controlled substances ON SCHOOL PROPERTY, shall be referred by the school principal or his designee, as soon as possible, but in no case later than five days

after such arrest, for testing or screening by a qualified medical professional for evidence of abuse of alcohol, illegal narcotics, drugs, or other controlled dangerous substances. The principal shall call the Coordinator of Drug Free and Safe Schools for the name and address of the appropriate testing professional.

- b. When the Coordinator's office (318) 449-3147 is notified of the test results, if evidence of abuse is found, the student shall be referred to an alcohol and drug abuse treatment professional chosen by the student's parent or guardian. If the student is found by the professional to be in need of treatment, and if the student agrees to cooperate in the recommended treatment, as certified in writing by the medical professional, such documentation may be used to initiate reopening the student's case. The school board shall take into consideration the student's agreement to receive treatment as a positive factor in the final decision relative to any final disciplinary action. (R.S. 17:416 (3) (a) (b) Students refusing to take a drug test is considered as a positive test result. Where the officer decides not to arrest the student when Drug or Alcohol possession or use is suspected, the principal may request that the student be taken to a physician, hospital or medical laboratory for the testing of blood or urine for the presence of any illegal drug. This test shall be performed with the written consent of the parent/guardian and in the presence of the principal/designee and the parent/guardian. Rapides Parish School Board will be responsible for the reasonable cost of the test. Parent/guardian will give Rapides Parish School System access to the results of the test.

EXPULSION PROCEDURE FOR DRUGS OR CONTROLLED SUBSTANCES -- (Refer to Section III of this policy)

SUSPENSION PROCEDURE FOR ALCOHOL RELATED OFFENSES (First Offense Only)

The student shall immediately be suspended from school, school activities or events and be instructed by the principal not to return until after a due process hearing or completion of the suspension requirements.

INTERNET SAFETY AND TECHNOLOGY

SCOPE OF THIS POLICY

This policy is in addition to any other Rapides Parish School Board policies currently in place. It does not take the place of or wholly supersede any previous policy. Portions of this policy that conflict with previous policies, supersede only the conflicting portion of the previous policy.

Guidelines are provided so that Internet users are aware of the responsibilities they are about to assume. Responsibilities include efficient, ethical and legal utilization of network resources. All users, including students, employees or any other users of School Board computers, hardware and Board network shall abide by all policies of the School Board and any applicable administrative regulations and procedures.

INTERNET PROTECTION MEASURE

A technology protection measure is a hardware and/or software technology that restricts or filters access to specific areas or sites on the Internet. It provides a measure of protection against access by minors or adults to Internet resources that are obscene, contain child pornography, contain material harmful to minors (with respect to Internet access by minors), or are otherwise inappropriate in an educational environment. Rapides Parish School District has had an Internet protection measure in place since 1999. The District uses a product by 8e6 Technologies, which utilizes blocking technology whereby specific Internet sites are included in a list of blocked sites and access to these sites is blocked. At the minimum, the blocked site list is updated weekly via a subscription service with the publisher. All Internet access in the District comes through the 8e6 device and is filtered. While the filter is very effective in blocking inappropriate content, the Internet is a rapidly expanding resource and no filtering or blocking technology is 100% effective. The possibility exists that all inappropriate content may not be blocked or that a determined person may find a method to partially or completely circumvent the filtering or blocking method.

As a matter of policy, all Internet access from within Rapides Parish School District will be filtered. There is no exception to this policy. In the case of Internet access by minors, the filtering mechanism may not be disabled for any reason. For access by adults, the filtering mechanism may, but is not required to be, disabled only to enable bona fide research. Filtering levels for faculty/staff may be set to a more permissive level than the level for students.

If a person feels an Internet site has been blocked in error, a written request from the school or central office department head must be submitted to the Director of Technology who will review the site in question. If it is deemed that the site is wrongly blocked, the site will be opened. If there is any question about the appropriateness of the site, the Director of Technology will make a recommendation to the Superintendent for a final decision.

ACCESS BY MINORS TO INAPPROPRIATE MATERIAL IN THE INTERNET AND WORLD WIDE WEB

The Internet is a vast and invaluable educational resource. However, in a worldwide network, there exists a small amount of information that is not appropriate for minors or an educational setting. Active measures such as filtering Internet access have been taken to minimize the chance of access by minors to these inappropriate materials. Additionally, as in other school matters, student use of the Internet will be supervised by school staff to reduce the chance a student will access inappropriate material. In order to educate students on appropriate use of the District system and the Internet, personnel who are responsible for supervising student access to the District's system will provide age and grade appropriate information to students regarding Internet and cell phones, emphasizing ethical and appropriate use of these resources. This includes, but is not limited to, information regarding appropriate online behavior, including cyber bullying awareness and response and interacting with other individuals on social networking sites and in chat rooms, as well as areas of concern as authorized in state and federal law.

SAFETY AND SECURITY OF MINORS WHEN USING ELECTRONIC MAIL, CHAT OR OTHER DIRECT COMMUNICATIONS

Due to the problems involved with providing adequate supervision of electronic communications, Rapides Parish School Board will not issue student email accounts except for specific educational purposes. Additionally, two-way, real-time electronic communication technologies such as Internet-based instant messaging and Internet chat will not be allowed within the District except for specific educational purposes. Furthermore, the participation by students in asynchronous electronic forums, social networking sites, or bulletin boards that are not exclusively of educational nature is prohibited. The exception to this is pre-approved, temporary access to such technologies for a specific educational need. Such usage must have prior written approval from the Director of Technology and will be granted on a temporary basis. Written request for access to these technologies from the school principal or central office department head must be submitted to the Director of Technology for written approval. If there is a question about

the appropriateness of the access, the Director of Technology will make a recommendation to the Superintendent for a final decision.

HACKING, VANDALISM, AND UNAUTHORIZED ACCESS

Malicious attempt to harm, deface, degrade, or destroy District equipment, software, or data or the data of another user or system to which the District network is connected is strictly prohibited. Such action includes but is not limited to intentionally uploading or creating computer viruses, "hacking" of websites, or intentionally degrading or disrupting system performance. Additionally, attempting to log on to the system by using another person's password or attempting to access District resources, or those resources connected to the District network, for which the user does not have permissions or rights is prohibited. These actions will be viewed as violations of District guidelines and policy and, possibly, as criminal activity under applicable state and federal laws. Sharing any user account information with others is prohibited.

UNAUTHORIZED DISCLOSURE OF PERSONAL INFORMATION

Unauthorized disclosure, use, and dissemination of confidential personal identification information regarding minors are prohibited. Requests for account usernames and password will never be requested via email and any such requests should be regarded as unauthorized and should be immediately reported to the school principal or department head. Requests for confidential personal information regarding students or staff should not be honored via email. Such requests should always occur by means of personal contact. All Board policies, state, and federal laws should be followed when a request for personal information of any sort is made.

MEASURES RESTRICTING ACCESS BY MINORS TO INAPPROPRIATE MATERIALS

The safety and protection of students while using the Internet or District network resources is of primary importance. Therefore, active measures will be taken to restrict, to the maximum extent reasonably possible, students' access to inappropriate material on the Internet and District network. The first of these measures is the filtering of all Internet access in the District as described above. As noted before, no filtering system is perfect and cannot substitute for staff supervision of student Internet use. Therefore, students are allowed to use computers attached to the District network only when supervised or granted permission by a staff member responsible for their supervision. To assist in the supervision process, computers that are attached to the network will, to the extent allowed by the individual room, be placed to maximize staff supervision of students using the system. As noted above, forms of electronic direct, real-time communication such as instant messaging and Internet chat are very difficult to supervise and the instant nature of the communication increases the danger that inappropriate messages will be sent or received. Because of the difficulty in supervising this type of communication, it is prohibited as outlined above.

EMAIL AND GENERAL TECHNOLOGY GUIDELINES

- Email, web access, and other electronic communications should not be considered private. While it is a violation of policy for a user or student to attempt to gain access to information for which they do not have authorization, authorized staff may monitor or examine email, file folders, and communications to maintain system integrity, to ensure users are using the system responsibly, or for any other reasonable purpose.
- The hardware, software, and networks that the Rapides Parish School District email system operates on have been purchased with public funds. For this reason, it should not be considered a private, personal form of communication. Although authorized staff does not actively monitor email or other electronic communications, contents of any communication of this type are governed by applicable public records law.
- District computers, software, networks, and Internet access are provided to support the administrative and instructional functions of Rapides Parish School District. These resources are to be used primarily for school and district-related purposes. Incidental personal use of district technology resources or equipment must not interfere with the employee's job performance or student learning. Additionally, such use must not violate this or any other Board policy, must not damage the district's hardware, software, or networks, or significantly degrade the quality of service of the District's technology resources.
- Confidential personal information on any staff member or student shall not be released by email without appropriate, approved encryption of any such messages.
- All users must follow existing copyright laws and restrictions regarding computer software and must not use District computer systems to violate any software license agreement, or any applicable federal, state, or local laws.
- All web pages or electronic publications created by any organization, staff, student, or other person that are housed on the District's computer systems will be subject to treatment as district-sponsored publications. Therefore, the district reserves the right to exercise editorial control over the content of these web pages or publications. Only content that supports the administrative, instructional, or other legitimate mission of the

school or department will be allowed on District web sites. Content of all District web sites must conform to the Student Web Policy. Additionally, no web page that represents any school, department, organization, or person of the Rapides Parish School Board may be published on a web server that is outside of the District network without written permission of the Director of Technology.

- District web pages or publications are not considered to be open, public forums. No such public forum may be created on any district web site to receive input from the public on any issue, educational or otherwise. District web sites shall be considered closed forums and shall be used only to transmit information to the public unless specifically approved in writing by the Superintendent.
- District sponsored web sites may contain links to web sites that are outside of the District site. While district personnel will make every reasonable effort to research links for appropriateness, these third party sites are not under the control of the District and Rapides Parish School District is not responsible for the contents of any linked site, any link contained within the linked site, or any changes or update to the linked site that may change its appropriateness. These links are provided as a convenience to users and their inclusion does not imply endorsement of these sites by Rapides Parish School Board.
- Students, faculty, staff, or other individuals bringing, obscene, vulgar, pornographic, racist, gang-related, hate, or other inappropriate material into the District's electronic environment are subject to applicable District policies and federal, state, or local laws. Appropriate disciplinary action or criminal charges may be applied to such actions. Staff members who knowingly bring obscene, vulgar, pornographic, racist, gang-related, hate or other inappropriate material into the District's electronic environment will be subject to disciplinary action or charges in accordance with District policies or federal, state, and local laws.
- State law (La. Rev. Stat. Ann. Rev. §17:810) and Board policy GAMHA, Electronic Communications Between Employees and Students, prohibit electronic communications between Board employees and students unless those communications are related to educational services provided to the student. Electronic communications between Board employees and students regardless who initiates the communications are prohibited when those communications may be viewed as derogatory, sexual, lewd in content, threatening, harassing, discriminatory, simple fraternization, or suggestive in nature. Violation of law or policy may result in discipline to the student or employee, including dismissal.
- Games and other software that are not of specific educational or administrative nature should not be placed on any District computer. All software that is installed on District computers must be for a specific educational or administrative purpose. The educational purpose must be documented by teacher lesson plans. Educational software must address a benchmark, standard, or lesson plan. Excluded from this are programs that are packaged with computer operating systems, utility programs such as anti-virus software, or utility software that enhances access to a computer's resources such as multimedia utility software. If there is a question about the appropriateness of particular software title, a request in writing should be made to the Director of Technology.

VIOLATION OF POLICY

In the case of students, the violation of any policy may result in the cancellation of user privileges and/or disciplinary action including expulsion or suspension. In the case of staff, the violation of any policy may result in the cancellation of user privileges and/or disciplinary action in accordance with tenure laws and due process provisions. Such acts may also result in criminal prosecution under applicable state and federal laws. In the case where such actions result in the District incurring costs to restore the network system, hardware, software, or data, the Board will require restitution for restoration costs.

Rapides Parish School Board B.Y.O.T (Bring Your Own Technology)

Responsible Use Guidelines

Introduction

Rapides Parish School Board recognizes that our information-based world is becoming increasingly complex and students who are skilled in creativity, critical thinking, communication, collaboration, and information technologies are better prepared to be successful citizens in the global community. Just as new technologies are changing the world in which we live, they are providing new and positive educational benefits that help students develop these skills. RPSB also recognizes that it does not have the resources to provide these technologies to every student.

In an effort to bring more technology tools into our classroom and to leverage student- owned technology, Rapides Parish School Board will allow personal technology devices to be brought on district campuses and onto our network. Students bringing such personal devices to school must follow all Louisiana law, RPSB policies, the Acceptable Use Policy and the guidelines set forth in this document. In addition to the rules outlined in these guidelines, students will be expected to comply with all class and school rules while using personal devices.

Rapides Parish School Board currently provides technology that is appropriate and relevant to support instructional purposes. Therefore, the use of personal devices by students is optional. Students who do not participate in B.Y.O.T. will not be penalized, and alternative modes of participation will be available. However, if particular classes are designated as technology-based, personal or district-provided technology may be required.

Definition of Personal Technology Device

A personal technology device (PTD) is any privately-owned technology device that includes, but is not limited to: laptops, cell phones, smart phones, eReaders, iPads, iPods, tablets devices, PDAs or other current or emerging devices that can be used for word processing, wireless or wired Internet access, recording of images/sound, email, etc. ***Cell phone or other electronic communication devices must be used in accordance with applicable Louisiana Statute and Rapides Parish School Board Policy.***

Responsibility, Security and Damages

Responsibility to keep the PTD secure rests with the individual owner. RPSB is not liable for any device stolen, infected, or damaged on campus, at school functions, or on the school bus. If a device is stolen or damaged, it will be handled through the administrative office similar to other personal artifacts that are impacted in similar situations. It is recommended that skins (decals) or other custom identification be used to physically identify your device from others. Additionally, protective cases for technology are encouraged. RPSB will not be responsible for any device charges to your account that may be incurred by using the PTD, whether or not the use is during approved, school-related use as outlined in this document.

It is a privilege rather than a right for a student to bring personal technology devices to school. When the policies are followed, our learning environment will be enhanced. However, when policies are abused, the privileges may be taken away and confiscation and/or disciplinary action may occur.

Guidelines

Students and parents/guardians participating in B.Y.O.T. must adhere to the Student Code of Conduct, Student Handbook, Acceptable Use Policy, and all Board policies, particularly Internet Acceptable Use. Student takes full responsibility for the PTD at all times. The school is not responsible for storing or keeping the PTD secure at any time. Each teacher has the discretion to allow and regulate the use of personal devices in the classroom and for use during specific projects.

Approved devices must be in silent mode while on school campuses, unless otherwise allowed by a teacher. Devices must be in silent mode while on the school bus. Devices may not be used to cheat on assignments or tests or for non-instructional purposes (such as making personal phone calls and personal text/instant messaging). Students may not use devices to record, transmit, or post photographic images, sound, or video of a person or persons on campus during school activities and/or hours, unless otherwise directed by a teacher for specific educational purpose. Only the Internet gateway provided by the school may be accessed while on campus. Personal Internet connective devices

such as but not limited to cell phones / cell network adapters are not permitted to be used to access outside Internet sources at any time.

Student acknowledges that the school's network filters will be applied to one's connection to the Internet and student will not attempt to bypass them. Devices may only be used to access files on computer or Internet sites that are relevant to the classroom curriculum. Games are not permitted, unless otherwise allowed by a teacher. Student must comply with all teacher requests regarding technology, such as shutting down, closing screen, storing, etc.

Student understands that bringing on premises or infecting the network with a Virus, Trojan, or program designed to damage, alter, destroy, or provide access to unauthorized data or information is in violation of RPSB policy and may result in disciplinary actions. Student realizes that activities or unauthorized access of information related to "hacking", altering, or bypassing security policies is in violation of the RPSB policy and will result in disciplinary actions.

The school district has the right to collect and examine any device that is suspected of causing problems or being the source of an attack or virus infection. Printing from personal laptops or devices will not be possible at school. Personal devices should be charged prior to school and run on battery power while at school. RPSB will not be responsible for providing charging stations/facilities.

RPSB will not provide repair or software installation services to any PTD.

I/we understand and will abide by the above policy and guidelines. I/we further understand that any violation is unethical and may result in the loss of B.Y.O.T. privileges as well as other disciplinary action.

REGENTS APPROVE NEW ADMISSION STANDARDS FOR STATE UNIVERSITIES

BATON ROUGE-- The Louisiana Board of Regents for postsecondary education approved today (March 22) a new master plan for all public postsecondary education in Louisiana that will include an admissions standards framework for all state four-year universities. Louisiana Commissioner of Higher Education Joseph Savoie described the Regents' actions in approving the new plan as "bold" and "unprecedented." The Board of Regents is the state's policy-making and coordinating body for all public postsecondary education in Louisiana. "The new master plan consists of four parts," said Commissioner of Higher Education Joseph Savoie. "It creates an admissions criteria framework for all four-year public universities and clearly defines the role, scope and mission of each college and university. It also revises the funding formula for colleges and universities, and sets specific goals, objectives and targets for all public postsecondary education in the state." The admissions criteria framework stresses, among other factors, a strong college-preparatory high school core curriculum now based on the TOPS core curriculum. The admissions framework also provides institutions, depending upon their mission responsibilities, a combination of other admissions elements including ACT scores, grade-point-average and high school class rank. The Regents expect many institutions and their faculties, with the endorsement of their respective systems boards, to set even higher standards. "This unprecedented effort to establish a statewide admissions criteria framework has never been done before in Louisiana," Savoie said. "This is about providing greater access through student success. This is not a plan designed to lock students out of the system, instead a concerted effort is being made to set clear expectations early on and to ensure students have the resources to meet their full potential. It is about access for success." The commissioner said the driving element in this plan is the high school college-preparatory core curriculum. The recent 1999-2000 Louisiana *Department of Education Progress Report* shows that high school students who completed a core curriculum had, on average, ACT scores 3.5 points higher than students who did not complete the core curriculum. A 1999 *U.S. Department of Education* study found that a core curriculum in high school is a chief factor in preparing for college. Academic resources (courses, tests and grades) double the odds that a student will graduate from college. According to the *American College Testing Service*, high school graduates who took the core course work are less likely to require remedial courses and it takes them less time to graduate. "The Regents' framework," Savoie said, "reflects educational realities in our state, which include one of the highest percentages of illiterate adults in the nation, a shortage of certified teachers, inadequate work skills for today's technological economy, an undercapitalized postsecondary education system, and one of the lowest test scores in the nation for 8th and 9th grade students in math and science. In just five years, these same students will be expected to be at nationally competitive levels just to be admitted into a four-year university." In addition, Savoie said discussions are underway with Board of Elementary and Secondary Education to develop aggressive outreach efforts focused on eighth and ninth grade students to provide assistance to those who need additional academic support. These efforts also will identify advanced students who may be ready to begin taking college courses while enrolled in high school. "Our goal," Savoie said, "is to create an environment that will help students be more successful once they reach college and to focus the resources of our colleges and universities on their primary missions." Savoie said the Regents took this action now to give schools, school boards and next year's high school freshmen adequate time to prepare for the new admission standards. The admissions framework creates four selective criteria categories:

Selective I-- high school grade point average (GPA) greater than or equal to 3.0 and completion of TOPS high school core curriculum or an ACT composite score greater than or equal to 25, completion of TOPS core curriculum and a minimum 2.0 GPA.

Selective II-- high school GPA greater than or equal to 2.5 and completion of the TOPS high school core curriculum or an ACT composite score greater than or equal to 23, completion of TOPS core curriculum and a minimum 2.0 GPA.

Selective III-- high school GPA greater than or equal to 2.0 and completion of the TOPS high school core curriculum or an ACT composite score greater than or equal to 20 and completion of TOPS core curriculum.

Open Admissions--Two year community colleges and technical college campuses. In addition, the 1994 Louisiana "Desegregation Settlement Agreement" between the U.S. District Court and the state requires Southern University-New Orleans and Grambling to maintain their open admissions status until 2006. The Settlement Agreement, as it is generally called, also states "each institution with admissions criteria shall have 15 percent of its entering class set aside for admissions exceptions. Ten percent shall be used for admitting other race students. The remaining 5 percent is available for other institutional interest students such as athletes, students with other talents, and children of alumni. "Students not meeting these requirements could attend the state's open-admissions community and technical college campuses for associate degrees, work-skills training, and college remedial education or to prepare themselves to enter a four-year institution at a later date. The commissioner also emphasized that if this plan is to be successful, the state must continue to expand the new community and technical college system. "If the master plan is to work," he said, "community college services must be expanded into areas of the state now under served. They will be the first point of access for many students who do not meet admissions standards or who might prefer to obtain associate degrees. The Board of Regents is working diligently to provide community college services with existing assets through partnerships among our universities, community and technical colleges while minimizing state financial obligations."

1. Applicable to students who are U. S. citizens or minors who are eligible and apply for citizenship within 60 days of their 18th birthday and who graduate from Louisiana public and approved non-public high schools and who are the dependent of a parent(s) who is resident of Louisiana for at least two (2) years prior to the month of the dependent's high school graduation or a dependent of a member of the Armed Forces who claims Louisiana as his legal residence and has filed Louisiana tax returns, or who is stationed in Louisiana and completes a DD Form 2058 to become a legal resident within 60 days of reporting to Louisiana or is an independent student who has been a resident for at least two (2) years prior to the month of high school graduation.

2. Scope of Investigation

Interviews must be conducted privately, separately, and confidentially. At no time shall the alleged offender and alleged victim be interviewed together. The principal or his/her designee shall collect and evaluate all facts using the *Bullying Investigation* form.

3. Parental Notification

Upon receiving a report of bullying, hazing, or similar behavior, the school shall notify the parents or legal guardians of the alleged offender and the alleged victim no later than the following business or school day. The principal may also file a complaint on the grounds the student is a truant or has willfully and repeatedly violated school rules, or any other applicable ground when, in his/her judgment, doing so is in the best interests of the student.

4. Documentation

At the conclusion of an investigation of bullying, hazing, or similar behavior, and after meeting with the parents or legal guardians, the principal or his/her designee or School Board shall:

- A. Prepare a written report containing the findings of the investigation, including input from students' parents or legal guardians, and the decision by the principal or his/her designee or school system official. The document shall be placed in the school records of both students.
- B. Promptly notify the reporter/complainant of the findings of the investigation and whether remedial action has been taken, if such release of information does not violate the law.

- D. Maintain reports/complaints and investigative reports for three (3) years.
- E. As applicable, provide a copy of any reports and investigative documents to the School Board for disciplinary measures, or to the Louisiana Department of Education, as necessary.

During the pendency of an investigation, the school district may take immediate steps, at its discretion, to protect the alleged victim, students, teachers, administrators or other school personnel pending completion of the investigation.

APPEAL

If the school principal or his/her designee does not take timely and effective action, the student, parent, or school employee may report, in writing, the incident to the School Board. The School Board shall begin an investigation of any properly reported complaint that alleges prohibited conduct the next business day during which school is in session after the report is received by the School Board.

If the School Board does not take timely and effective action, the student, parent, or other school employee may report any bullying incident to the Louisiana Department of Education.

DISCIPLINARY ACTION

Once a report has been received at a school, and a school principal or his/her designee has determined that an act of bullying, hazing, or similar behavior has occurred, and after having met with the parent or legal guardian of the student involved, the principal or his/her designee, or applicable school official shall take prompt and appropriate disciplinary action against the student, and report criminal conduct to law enforcement.

Counseling and/or other interventions may also be recommended.

Students may be disciplined for off-campus bullying, hazing, or similar behavior the same as if the improper conduct occurred on campus, if the actions of the offender substantially interferes with the education opportunities or educational programs of the student victim and/or adversely affects the ability of the student victim to participate in or benefit from the school's education programs or activities.

ACT 635 of 2018

Act 635 of 2018 provides for criminal penalties for persons convicted of hazing. Additionally persons found responsible for hazing in any form or the use of any method of initiation into any school organization which is likely to cause bodily danger or physical punishment to any student or other person attending school is prohibited and any violation of that prohibition by a student requires expulsion or suspension from school for at least one semester as provided by the amendment to R.S. 17:1801.

Such request shall be filed with the Superintendent. Upon receipt of the request to transfer the student to another school, the School Board shall make a seat available at another school under its jurisdiction within ten (10) school days of the parent or legal guardian's request for a transfer. If the School Board has no other school under its jurisdiction serving the grade level of the victim, within fifteen (15) school days of receiving the request, the Superintendent shall:

2. Offer the student a placement in a full-time virtual program or virtual school under the School Board's jurisdiction.
3. Enter into a memorandum of understanding with the Superintendent or director of another governing authority to secure a placement and provide for the transfer of the student to a school serving the grade level of the student, in accordance with statutory provisions.

If no seat or other placement is made available within thirty (30) calendar days of the receipt of the request by the Superintendent, the parent or legal guardian may request a hearing with the School Board, which shall be public or private at the option of the parent or legal guardian. The Board shall grant the hearing at the next scheduled meeting or within sixty (60) calendar days, whichever is sooner.

At the end of any school year, the parent or legal guardian may make a request to the School Board to transfer the student back to the original school. The School Board shall make a seat available at the original school that the student attended. No other schools shall qualify for transfer under this provision.

DEMONSTRATIONS BY STUDENTS

It is recognized that individual students or groups of students may, from time to time, feel the need to assert their collective sentiments in matters of public opinion. Students have a right to express their opinions, in a proper manner, and to exercise the opportunity to discuss any problem with their teachers and principal. It is the duty of the principal to always keep lines of communication open with his/her students, and to listen to the complaints in a fair and sincere manner.

In the expression of opinion, students shall be expected to conduct themselves in an orderly and controlled manner. Boisterous, unrestrained behavior by students shall not be tolerated. Disorderly demonstrations, sit-ins, lock-ins, or damages to school grounds, school plants, or school records shall not be permitted. Any type of demonstration that prevents the orderly progress of a school day, that prevents normal class functions, or that prevents nonparticipating students from their usual class activity, shall be considered unacceptable behavior and shall result in appropriate disciplinary action being taken by the principal. Students participating in such demonstrations shall be immediately suspended and removed from the campus by force if necessary. Students suspended shall not be allowed to return to the campus until the suspension is terminated by the Superintendent. Standard disciplinary due process procedures applicable to suspension or expulsion of students shall be initiated following suspension of a student under this paragraph.

DISRUPTIONS IN SCHOOLS

The Rapides Parish School Board shall not tolerate disruptive acts or influence from any student or person at the schools. All school personnel are directed to immediately take action against any student or person who attempts to interrupt, interfere with, or obstruct the educational processes of the schools, and to report the name of any instigator or offender to the police and to the District Attorney's office. Violators, if students, shall be suspended and shall not be permitted to return to school without the written consent and permission of the Superintendent. Standard disciplinary due process procedures applicable to suspension or expulsion of students shall be initiated following suspension of a student under this paragraph.

When and if needed, local police officers and sheriffs' deputies may be stationed at each school to ensure the safety of school personnel and students and to permit the schools to operate normally.

EDUCATION OF STUDENTS WITH EXCEPTIONALITIES

The Rapides Parish School Board shall make available a free appropriate public education in the least restrictive educational environment to each student with an exceptionality, ages three through twenty-one, who is a resident of the geographical boundaries of the school district. Special education and related services may be provided by the School Board to eligible children with exceptionalities under three years of age. Generally, identified children shall be screened and evaluated to determine eligibility to receive special education and related services. If it is determined in the evaluation process that a child has a disability and, by reason thereof, needs special education and related services, then the child is classified in accordance with Louisiana's *Pupil Appraisal Handbook*, Bulletin 1508 and becomes eligible to receive special education services. All special education services shall be provided to eligible students with exceptionalities in accordance with the regulations outlined in *Regulations for the Implementation of the Exceptional Children's Act*, Bulletin 1706.

The School Board shall establish and maintain regulations and procedures in accordance with federal and state laws and regulations to ensure that students with exceptionalities and their parents are provided the necessary procedural safeguards with respect to the provision of free appropriate public education by the School Board.

SECLUSION AND RESTRAINT

The School Board recognizes that, in order for students to receive a free appropriate public education, a safe learning environment needs to be provided. In doing so, the School Board also recognizes that there are circumstances in school under which reasonable and appropriate measures and techniques will need to be employed in dealing with students with exceptionalities who pose an imminent risk of harm to self or others.

The School Board fully supports the use of positive behavior interventions and support when addressing student behavior. The School Board reserves its right, however, to use physical restraint and/or seclusion consistent with state law to address the behavior of a student with an exceptionality when school personnel reasonably believe the behavior poses an imminent risk of harm to the student or others. The School Board shall not preclude the use of physical restraint and/or seclusion performed consistent with the requirements of a student's *Individualized Education Program* (IEP) or behavior intervention/management plan.

Imminent risk of harm shall mean an immediate and impending threat of a person causing substantial physical injury to self or others.

Seclusion shall mean a procedure that isolates and confines a student in a separate room or area until he or she is no longer an immediate danger to self or others.

Seclusion room means a room or other confined area, used on an individual basis, in which a student is removed from the regular classroom setting for a limited time to allow the student the opportunity to regain control in a private setting and from which the student is involuntarily prevented from leaving.

Mechanical restraint means the application of any device or object used to limit a person's movement. Mechanical restraint does not include: (1) A protective or stabilizing device used in strict accordance with the manufacturer's instructions for proper use and which is used in compliance with orders issued by an appropriately licensed health care provider; and (2) Any device used by a duly licensed law enforcement officer in the execution of his/her official duties.

Physical restraint means bodily force used to limit a person's movement. Physical restraint does not include: (1) Consensual, solicited, or unintentional contact; (2) Holding of a student by a school employee for less than five minutes in any given hour or class period for the protection of the student or others; (3) Holding of a student, by one school employee, for the purpose of calming or comforting the student, provided the student's freedom of movement or normal access to his or her body is not restricted; (4) Minimal physical contact for the purpose of safely escorting a student from one area to another; (5) Minimal physical contact for the purpose of assisting the student in completing a task or response.

Positive behavior interventions and support means a systematic approach to embed evidence based practices and data-driven decision making when addressing student behavior in order to improve school climate and culture.

School Employee means a teacher, paraprofessional, administrator, support staff member, or a provider of related services.

The parent or other legal guardian of a student who has been placed in seclusion or physically restrained shall be notified as soon as possible. The student's parent or other legal guardian shall also be notified in writing, within twenty-four (24) hours, of each incident of seclusion or physical restraint. Such notice shall include the reason for

such seclusion or physical restraint, the procedures used, the length of time of the student's seclusion or physical restraint, and the names and titles of any school employee involved.

The director or supervisor of special education shall be notified any time a student is placed in seclusion or is physically restrained.

A school employee who has placed a student in seclusion or who has physically restrained a student shall document and report each incident. Such report shall be submitted to the school principal not later than the school day immediately following the day on which the student was placed in seclusion or physically restrained and a copy shall be provided to the student's parent or legal guardian.

This policy and the guidelines and procedures maintained by the Superintendent and staff shall be provided to all school employees and every parent of a child with exceptionality.

All instances where seclusion or physical restraint is used to address student behavior shall be reported by the School Board to the Louisiana Department of Education.

Guidelines and Procedures

The School Board shall require the Superintendent and staff to maintain adequate written guidelines and procedures governing the use of seclusion and physical restraint of students in accordance with federal and state law, as well as regulations and guidelines promulgated by the Louisiana Board of Elementary and Secondary Education (BESE). The School Board shall approve written guidelines and procedures regarding appropriate responses to student behavior that may require immediate intervention using seclusion and/or restraint. The written guidelines and procedures shall be provided to all school employees and every parent of a student with an exceptionality and shall include reporting requirements and follow-up procedures, including notification requirements for school officials, notification to the student's parent or legal guardian, and reporting of seclusion and restraint incidents to the Louisiana Department of Education.

Follow-Up

Following any situation resulting in the use of seclusion or restraint of a student, a *Functional Behavioral Assessment* (FBA) should be considered. If a student subject to the use of seclusion or physical restraint is involved in five (5) such incidents in the school year, the student's *Individualized Education Plan* (IEP) team shall review and revise the student's *Behavior Intervention Plan* (BIP) to include any appropriate and necessary behavioral supports. Documentation compiled for a student who has been placed in seclusion or has been physically restrained and whose challenging behavior continues or escalates shall be reviewed at least once every three weeks.

Employee Training Requirements

The Superintendent or his/her designee shall be responsible for conducting or obtaining appropriate training programs for school personnel designed to address the use of seclusion and restraint techniques with students with disabilities. In addition, positive behavioral intervention strategies, crisis intervention, and de-escalation, as well as other procedures, may also be included in any training.

Charter Schools

Notwithstanding any state law, rule, or regulation to the contrary and except as may be otherwise specifically provided for in an approved charter, a charter school established and operated in accordance with State law, including its approved charter and the school's officers and employees, shall be subject to the School Board's policy and written procedures and guidelines regarding the use of seclusion and restraint with students with exceptionalities.
