PUBLIC SCHOOL CHOICE

GENERAL

Louisiana Public School Choice (La. Rev. Stat. Ann. 17:4035.1) provides for the right of a parent or legal guardian to enroll his child in a school other than the school to which the child was scheduled to be enrolled based upon a school district attendance zone, if the school at which the child was most recently enrolled received a School Performance Score of "D" or "F" in the most recent school year, and the school to which the child is sought to be enrolled received a School Performance Score of "A", "B" or "C" in the most recent school year, pursuant to the state's school and district accountability system. To facilitate the operation of Louisiana Public School Choice, the Rapides Parish School Board establishes the following policy and procedure. As Louisiana Public School Choice provides for certain variable eligibility criteria, any enrollment based upon Louisiana Public School Choice will be considered an annual enrollment and will not obligate the School Board to allow for enrollment beyond one school year.

SINGLE POINT OF CONTACT

A parent or guardian wishing to utilize Louisiana Public School Choice who resides and intends on continuing to reside during the upcoming school year inside of Rapides Parish must contact and meet with the Director of Federal Programs at the Gladys Higdon Instructional Resource Center, 502 Beauregard Street Alexandria, Louisiana. This will be the only office authorized to process an application to enroll under Louisiana Public School Choice.

An application for enrollment under Louisiana Public School Choice shall serve as consent for the School District to obtain the records and information necessary to determine the eligibility/ineligibility of the student.

DEFINITION AND VERIFICATION OF CAPACITY

The primary obligation of the School District is to provide for the enrollment of students who reside within Rapides Parish and more specifically to provide for enrollment of students in Rapides Parish in the schools aligned with duly established attendance zones. Therefore, the District shall not enroll students utilizing the provisions of Louisiana Public School Choice to the extent that such enrollment may conflict with this primary obligation.

Upon receipt of an application for enrollment under Louisiana Public School Choice, the District shall verify whether the school to which the student is sought to be enrolled has sufficient capacity. Capacity is defined as the means to which a school can appropriately educate its student population with the intentional and meaningful use of resources afforded to it.

At no point shall the Rapides Parish School Board be obligated to hire additional teachers/staff or secure portable classroom space in order to provide capacity. As such, the district sets student-teacher ratios will be set for each school during years staffing meetings. These meetings consist of district administration and school administration reviewing individual school course offerings, available student learning spaces, student population, expected student enrollment, and teacher allotments. The School Choice Program and the additional enrollment under Louisiana Public School Choice will not exceed the district set student-teacher ratios for each school.

Upon such a determination, the parent shall be advised whether or not the school at which enrollment is sought has sufficient capacity.

The verification of capacity shall be an annual determination for the re-enrollment of Louisiana Public School Choice students for each subsequent year.

The placement of students under Louisiana Public School Choice with respect to the district student:teacher ratio and staffing process will not exceed the following ratios.

- "A" Rated Schools will not exceed student-teacher ratios of 22:1.
- "B" Rated Schools will not exceed student-teacher ratios of 20:1.
- "C" Rated Schools will not exceed student-teacher ratios of 18:1.

This practice will determine eligibility for seats and individual school capacity among individual grade levels. While the district reserves the right to exceed these ratios for staffing purposes, the placement of students under Louisiana Public School Choice will not.

ENROLLMENT PERIOD

The enrollment period for a student currently enrolled in a Rapides Parish public school seeking participation in Louisiana Public School Choice shall be March 1 to March 31 of each calendar year. The application shall be found on the District's webpage. Applications will be completed electronically or in person within the Federal Programs Department at the address listed above.

Students who move into the district during the school year or move into a failing school zone during the school year are eligible to apply for Louisiana Public School Choice placement based on available school capacity at the time of application.
